NUMBER 49

### SCHOOL BOARD WANTS SEWER CONNECTION

City Council Urged to Provide Proper Facilities For New Building and Other Schools

At the regular meeting of the City Council on Monday night, which was attended by all its members, one of the most important matters amongst the business on the table was a letter from the Secretary of the School Board stating that the new school had now reached the stage for sewer connection to be made, and to enquire if provision was being made for the facilities. The Board also desired to remind the Council that at the time the Primary School was built in 1927 a wooden septic tank was installed there, as it was understood by the Board that sewerage facilities would be supplied by the City before the wooden tank decayed. As wood under such circumstances tended to decay very rapidly, the Board urged the early necessity of permanent sewerage facilities for all the schools.

With no financial provision made for the work, it was regarded as impossible by the Council to provide sewer connection for the schools this year, and it was the opinion that a septic tank could be installed at comparatively low cost to serve the new school temporarily.

Ald. Meikle remarked that the wooden septic tank at the Primary School, which had not been installed at the instance of the Council, was poor economy as concrete construction would have cost very little more and would have lasted indefinitely.

The matter will be taken up further in committee.

**Motor Traffic Near Schools**

Another letter from the School Board drew attention to the need of guarding against car speeding on Richter Street in the vicinity of the schools. With occupation of the new school, there would be nearly one thousand children in attendance at the elementary and High Schools, many hundreds of whom would be crossing and re-crossing Richter Street continually at all hours, before, during and after school. As there was heavy motor traffic on and across the street at all times, the Board urged that some safeguarding rules be enforced, so that the lives of children using the streets and crossings may be rendered as safe as possible.

The letter was laid over for further consideration.

**Gasoline Pump On Ellis Street**

An application by Mr. W. S. Brown to install a curb gasoline pump on Ellis Street, with tank on his property, was granted on condition that the pump shall be installed under the supervision and to the satisfaction of the City Engineer, and that the Council reserves the right to order its removal at any time.

**Appointment of Office Assistant**

The City Clerk reported that, sufficient applications having been received from residents of the city to allow of selection, two applications from outside residents for the position of light and water rates clerk and general office assistant had not been taken into consideration. From the others he had made a selection of two candidates, whose names and qualifications he submitted.

The choice of the Council was Mrs. Hilda Hoies, who was appointed to the position at an initial salary of \$70 per month, dating from July 17th, 1929.

**No Gasoline Pump on Abbott Street**

It was announced that, following the last meeting of the Council, objections were lodged by the Fire Brigade to the proposed installation of a gasoline pump in front of the Jackson Block, adjoining the Lakeview Hotel, on the ground of hazard, and the resolution granting permission to install the pump accordingly was rescinded by passage of another resolution.

**Mr. E. C. Weddell Confirmed as City Solicitor**

The Mayor drew attention to the need of settling the appointment of a City Solicitor to fill the vacancy caused by the resignation of Mr. J. F. Burne upon assuming office as Police Magistrate, as legal advice was being required by various civic departments, especially the police, from time to time.

A resolution was passed according to the position Mr. E. C. Weddell, barrister and solicitor, who had been associated with Mr. Burne in the duties, at a salary of \$200 per annum, payable quarterly, on the understanding that he carries on the arrangements made with the City by the former firm of Burne & Weddell, under which all legal advice was covered by the yearly retainer, while attendance in court and other legal services were paid for separately. The appointment dates from June 11th.

**No Tables On Sidewalks**

An application from K. Kandies for permission to place tables to occupy three feet of the sidewalk in front of their store on Bernard Avenue, between the hours of 8 p.m. and 11 p.m., was refused.

**Disposal of Unlicensed Dogs**

A legal opinion received from the Acting City Solicitor stated that the Pound-keeper may kill unlicensed dogs after he has held them, unclaimed, for forty-eight hours.

Continued on Page 4

### MOSQUITO DESTROYING FISH FOR LOCAL PONDS

Shipment of Gambusia Fish Received From Banff

A small fish, described as Gambusia, of no edible value, has proved a voracious destroyer of mosquito larvae in the swamps of Florida, and has thrived under very different conditions at Banff. Through the good offices of Mr. Eric Hearle, Dominion Entomological Branch, Kamloops, a supply of this kind of fish has been secured for experimentation in the rural districts surrounding Kelowna, arriving yesterday by the C.N.R. in charge of Mr. Ian McTaggart-Cowan, of the Entomological Branch.

The train was met by Messrs. H. V. Craig, F. W. Groves, H. F. Rees, H. A. Willis and Bradshaw, who assisted Mr. McTaggart-Cowan in placing the mosquito eaters in three ponds in the Bankhead area.

The Gambusia, which attains a maximum length of only one inch, is said not to be a very prolific breeder, as instead of being produced from roe in the hiberna customarily to most fish, it is born alive, but it has proved very hardy and has become readily acclimated to the low temperatures encountered at Banff. So it is hoped that it will prove successful in this district.

### REGULATIONS AS TO FOREIGN CARS

Vehicles Entering Canada Can Be Used Only For Purposes Of Pleasure

With reference to the press dispatch from Ottawa which appeared in our issue of last week referring to certain changes in the regulations affecting the entry of foreign motor cars into Canada, the item was so condensed that it was apt to be misleading and for the information of the public, Mr. A. D. Weddell, Sub-Collector of National Revenue, has furnished The Courier with the following text of the instructions to its officers issued by the Department.

"Driving between points in Canada attending meetings or conferences or examining properties or industrial plants, are not to be considered to be violations of the provisions of the permit endorsed as provided for herein, but such privileges do not include the right to transport goods, or carry passengers between points in Canada for the purpose of gain or hire, that is, take on goods or passengers at one point in Canada and discharge same at another point therein, nor the use of the vehicle for any purpose by any person other than the permit holder, or by persons who are using the vehicle for selling goods or insurance, or engaging in commercial pursuits in competition with residents of Canada.

Cars entering Canada under permit are to be used for purposes of health and pleasure only."

### SMITHERS BANK BANDIT STILL AT LIBERTY

SMITHERS, B.C., July 18.—Although hunted by posses of police and armed citizens, the masked bandit who staged a holdup of the Smithers branch of the Royal Bank of Canada yesterday morning, is reported still at large.

After securing \$2,000 in cash and engaging in a gun duel with A. G. Borde, bank teller, the bandit was pursued by I. Kenny, broker, who chased him until he was tired. The bandit then stopped and gave up \$860, escaping with the rest. Kenny was not armed.

### FOURTEEN CANADIANS IN SECOND STAGE OF KING'S

BISLEY CAMP, England, July 18.—Canada will have eleven members of its team and three attached Canadians in the second stage of the King's Prize on Friday, and three additional Canadians with teams of 92 have a chance to secure places.

Lieut. Desmond Burke, of Ottawa, former King's Prize man and also runner-up, led the Canadian team with 99. Two Canadian non-members of the team also had this total.

### THREE TIE FOR LEAD IN FIRST STAGE OF KING'S

BISLEY CAMP, England, July 18.—Three English marksmen with totals of 101 out of a possible 105 tied for leadership in the qualifying stage of the King's Prize yesterday. Sergt. Major C. Clarke, of the Civil Service Rifles, Lieut. J. G. Booth, formerly of the Royal Air Force, and Q.M.S. Philpot, of the Royal Sussex Regiment, will shoot off for the bronze medal.

### KING GEORGE CONTINUES TO MAKE GOOD PROGRESS

LONDON, July 12.—King George's doctors were at Buckingham Palace only about forty-five minutes this morning, stating when they left that he was making satisfactory progress after his operation on Monday morning.

The Prince of Wales and the Duke of York both drove to the Palace just after the physicians left and stayed for some time.

### MILLION DOLLAR WATER FRONT BLAZE IN SEATTLE

SEATTLE, July 18.—In Seattle's biggest water-front fire since 1914, the United Pacific dock was practically destroyed last yesterday with damage estimated at \$1,000,000. Six injured firemen were recovering from burns and suffocation at Providence Hospital today.

### CHERRIES GET PRECOOLING TREATMENT

Plant At Kelowna Growers' Exchange Proves of Great Value in Handling Soft Fruits

For the first time in history cherries are being precooled before shipment in the packing house of the Kelowna Growers' Exchange, and the result is that the fruit is arriving on the eastern markets in excellent condition. The precooling plant at the Exchange is proving of inestimable value in the handling of this variety of fruit, and in future heavy crop years, when it is sometimes necessary to hold cherries in storage from two to three days owing to market conditions, the handling of cherries will be greatly facilitated through use of the precooling rooms in that it will be possible to preserve them in their natural condition without loss of flavour or impairment of their general condition. It will also be possible to take care of other varieties of soft fruits in the same manner, and this year pears will be precooled at the Exchange prior to shipment.

In addition to the large quantity of cherries precooled for Sales Service Ltd., who with the Associated Growers control the larger percentage of the tonnage, the Exchange has also doubled the output of 1928. About thirty packers are now employed in the packing of Lamberts, but it is expected that the end of the week will find them pretty well cleaned up. From two to three cars are being shipped daily to prairie points as far east as Winnipeg, and a few shipments to Minneapolis have been made. Ordinarily, the fruit remains in the precooling room from twelve to twenty-four hours before being loaded into the cars, and this system has made possible several shipments by freight, which, without precooling treatment, might spell disaster owing to the possible delay consequent upon this method of transportation.

When cherries are brought into the packing room of the Exchange the ripening process is checked as a temperature is maintained of from fifty to sixty degrees—neither too high to make the work of packing uncomfortable, nor too low to make the cold rooms of the Yakima Fruit Growers are sometimes maintained at a temperature of forty degrees. As rapidly as the cherries are packed they are loaded and transferred to a room of thirty-two degrees, awaiting loading and shipment in ice cars in which about four per cent salt is used. The fruit is not, of course, held back in the Exchange room longer than necessary but is loaded out rapidly. The following extract, taken from a letter addressed to Mr. J. M. Robinson, Manager of the Kelowna Growers' Exchange, points out the advantages of precooling rooms at times when it is necessary to hold soft fruit in storage.

"As for the length of time which cherries may be held in cold storage, we have frequently held them there for three or four days awaiting shipment and the writer has personally known of shippers holding cherries as long as a week in order to avoid market glut and things of that kind. We, however, do not advise this except as an emergency measure, but it would certainly do them no harm to hold them in thirty-two degrees for three or four days and yet have them arrive in good condition on the far eastern market."

According to the Committee of Direction, there have been no claims on cars of precooled cherries, which speaks well for the precooling system. It is the intention of the Exchange to precool some of the McIntoshes as well as pears.

### KELOWNA HOSPITAL MONTHLY REPORT

Maternity Wing and Isolation Hospital Opened Without Formality

During June 104 patients were treated at the Hospital, a total of 1,057 days treatment being given. Fifty-seven patients, treated for 583 days, were residents of the city, and forty-seven patients, treated for 474 days, were from surrounding districts. Four deaths took place during the month and there were ten births.

### TORRID WEATHER BRINGS FIRE HAZARD

Outbreak At The Mission Extinguished Just In Time

The hot weather of the past five days, with maximum temperatures reaching well up into the nineties, has intensified the fire hazard created by the unusually dry spring, the effect of which was not eliminated by a showery June, and unless careful people can be brought to see the error of their ways and to extinguish match, cigarette or cigar butt, or contents of pipe, before discarding such material, outbreaks of fire are certain to occur, with disastrous consequences.

A correspondent states that what might have been a forest fire of serious proportions was narrowly averted on Monday, when Mr. "Bill" Goldsmith, a fortunate discoverer of the outbreak in the early stages, called on the fire property of Mr. C. B. Windsor, at Okanagan Mission. He promptly summoned the Fire Warden and collected several helping hands from the Mission, who hastened to the spot. Owing to its early discovery and speedy extinction, the blaze was prevented from destroying much valuable property and timber, as about an hour after it was started a strong breeze from the south sprang up which would have fanned it to fury.

Picnickers were seen at the point of origin of the fire on Sunday, and presumably it was their fire that started the trouble. It cannot be too strongly reiterated that all camp fires should be drenched thoroughly with water before leaving, or, if water is not available, what may seem to be harmless black embers can be stirred into a glowing red danger and scattered amidst inflammable dried leaves and grass by a sudden breeze.

The correspondent desires that acknowledgment be made of the public spirit of those who immediately left their work at the Mission to assist Messrs. Dunlop and Ivens and of the prompt appearance of the Fire Warden and his helpers.

### CANADIAN CLUB SUCCESSFULLY ORGANIZED

Mr. F. M. Black Chosen As President At Inaugural Meeting of New Body

Transacting the business to be done in just one hour's time, the Canadian Club of Kelowna auspiciously entered upon its career on Tuesday evening as the newest of the city's various community organizations, and if the crisp way in which the initial work was handled is to form a precedent for the future, it should prove one of the most successful and popular of local societies.

Foundation work had been proceeding quietly but effectively for some time, between fifty and sixty names of those willing to join having been secured, of whom about half the number were in attendance at the meeting in the Board of Trade Hall.

Mr. H. F. Rees was chosen as chairman, and Mr. D. K. Gordon consented to act as secretary. The proposal to form a Canadian Club had been under consideration for some considerable time. Kelowna usually took the lead in such matters, but in this regard for once had allowed other towns in the Okanagan to get ahead. Perhaps there was not on the main line, and as much benefit would be derived from a Canadian Club as in other places, but such could not be the case, as the affiliation of a Canadian Club ensured obtaining the attendance of prominent speakers, who were routed across Canada from one Canadian Club to another. Also, there might be an impression that the activities of other organizations might be duplicated, but the work of the Board of Trade, or of the Rotary or Gyro Clubs, as the Canadian Club was practically a luncheon club for the purpose of hearing speakers. Nor was its membership restricted to native sons, as some might be led to believe by its title; it was open to all male British subjects. He invited Mayor Sutherland, who had taken an active part in founding the Kelowna club, to speak.

His Worship regretted the absence of Mr. F. M. Black, who had been actively associated with the Canadian Club movement for a number of years and knew far more about it than the speaker. So far as he himself was concerned, all he knew about in connection with the establishment of the local club.

The service clubs, such as Rotary and Gyro, had certain restrictions as to membership, either as to number or representation of callings, other societies had religious qualifications, etc., but there was no restriction in connection with the Canadian Club, whose principal idea was to try to blend the various races in Canada into one whole, to study the country, its conditions, literature and history, and by means of speakers to disseminate knowledge, not only of Canada but of other countries.

Outside of the luncheons and addresses, the activities of Canadian Clubs were few, and very small subscription fees were all that was necessary to provide for stationery, postage and other operating expenses. As each member paid for his meal, the luncheon was provided.

(Continued on page 4)

### CHERRY PACK TOO HEAVY FOR PRAIRIE

Number Of Cars Necessarily Dispatched To Eastern Canada And To United States

Kelowna, July 15, 1929. At the opening of business on the morning of Monday, the 15th instant, the estimate of the deliveries of cherries for the days 15th to 20th July, inclusive, were 16,000 cases from the Okanagan, with Kootenay shipments beginning in volume. The former will be chiefly Lamberts, Bings and Windors being practically over. Shippers are being suggested to their growers that they should not rush in Lamberts at the close of last week. The uninterrupted fine weather has permitted cherry picking to go ahead unceasingly. The result has been that far more cherries were being packed than could be absorbed by the prairie market and that, at the close of the week ending July 13th, a number of cars had to be dispatched to Eastern Canada and the United States. The prices which will be received for those shipments to a distance, and for some where competitive conditions have rendered a revision of price necessary, will be reflected in the net returns for shipments, the average of which cannot be expected to realize the full f.o.b. prices set by the Committee. However, the situation, as met by the Interior Committee of Direction, will be more fully reviewed at a later date, when all the facts relating to the movement are before it.

**Celery**

Considerable discussion took place during last week as to the grades of celery permitted by the Dominion. There was anxiety displayed on the part of some shippers that no celery should move until it was sufficiently mature to be a real credit to the Armstrong District. Thus, the matter was left in the hands of the Dominion Inspectors to say that it was sufficiently bleached to warrant shipment. Accordingly, the first shipments went out about July 8th. These were in boxes and the heads or stalks were at least 50 per cent bleached. The celery was exceptionally fine and crisp, and met with a very early reception everywhere.

It also seemed desirable to restrict all early movement to washed celery. The California grade has not yet been released. It will probably be permitted to be shipped in crates during this week as soon as the grade suggested by the Committee has been approved by Ottawa.

**Crop Conditions On The Prairies**

The Interior Committee regrets to report that its advice from the Prairies are of a very pessimistic nature. Continued dry weather has almost wiped out the crops in certain districts. We hope that this will not have an adverse effect on the marketing of our fruit, both as to prices and quantities.

**Carlot Inspection**

Under date 9th July, the Interior Committee issued the following Order with regard to inspection of all fruits and vegetables from the Interior of British Columbia:

"1. The Dominion Government will inspect every carload of fruit and vegetables shipped from the Interior of British Columbia.

"2. Each shipper will prepare his set of shipping bills as usual, but before delivery to the Railway Agent, must mark them with a number given him by the Dominion Inspector. This will be the serial number borne by the actual Certificate, prepared by the Dominion Inspector in respect of each carload. The obtaining of this serial number from the Dominion Inspector will enable the shipper to bill out the car. The shipper will receive from the Dominion Inspector copy, or copies, of the Government Certificates.

"3. Where shipments are to be made from a point where an Inspector is not available, the Dominion point will use a Release Form with separate serial numbers. The number from this Release series will be furnished by the Dominion Inspector and must be used as above before billing out the car.

"4. The charge made by the Dominion Government for the above service will be \$3.00 per car."

In addition to the foregoing, the Committee, by Circular dated 16th July, is calling attention to the fact that all invoices for carlot shipments rendered to it must likewise bear the inspection number.

### INTERIOR COMMITTEE OF DIRECTION

### BLAZING SUN STILL SCORCHES WESTERN GRAIN

WINNIPEG, July 18.—The grain fields of Western Canada received another scorching yesterday as the mercurial thermometer hovered near 80 and 90 in other sections of the prairies. There was no sign of relief for the parched field crops. No showers occurred in any section of the West, and the forecast for Thursday gave no promise of relief. Thunder showers were expected to bring a little relief to the parched crops in many areas. Medicine Hat, with a maximum of 100, is a warm spot in the three provinces.

### KELOWNA REPRESENTATION AT SCHOOL OLYMPIAD

Five Promising Young Local Athletes Have Applied For Entry

Kelowna will be represented at the first annual school Olympiad at Vancouver, which will be held in conjunction with the Vancouver Exhibition during the first week in August, by the following junior athletes, who with Vernon, Oyanpa, Penticton and possibly students from other Okanagan points, have already applied for entry: Harold Johnson, Rudolph Guidi, Gordon Murray, Maurice Meikle and David Garbutt. This quintette made excellent showings at the annual Okanagan School Track Meet held at Penticton in May.

The Vancouver Sun, which newspaper is providing transportation to out-of-town athletes, is sponsoring the event, and various schools throughout the province are entering teams in the meet, which will be held on the Kelowna Games programme. The Kelowna entrants should provide stiff opposition for the best in the province.

### ANNIVERSARY OF THE BOYNE COMMEMORATED

Orange Lodges Celebrate Occasion With Banquet and Social

In common with Orange Lodges the world over, the 239th anniversary of the Battle of the Boyne was fittingly celebrated in Kelowna on July 12th by members of York L.O.L. 1870 and Unity L.O.B.A. 453, together with Peachland brothers and sisters, at a banquet and social in the Orange Hall at 7:30 p.m. Worshipful Master J. E. Stone called the members to order and the Rev. Mr. Scott, of Peachland, asked the blessing, after which full justice was done to a chicken dinner tastefully prepared by the ladies of the L.O.B.A.

Following dinner the Worshipful Master, in a brief address, welcomed the visitors, which was responded to by Brother Folkes, of Edmonton, and Brother Young, of Peachland. A toast to the L.O.B.A. took the form of a song, all rising and singing "For They Are Jolly Good Fellows," which was responded to by Sister Taggart, Past Grand Secretary, Kelowna, and Sister Young, Worthy Mistress, of Peachland.

Fitting responses to toasts to the world over, were made by Brother T. Pitt, L.O.L., and Brother Jones, Third Past Master, of Peachland. A toast to the Rev. Mr. Scott, of the Children's Protestant Home at New Westminster were responded to by Brother J. S. Clarke.

The Worshipful Master next asked all to stand in silence for a brief period in honour of departed brothers. Thanksgiving was offered for the recovery of His Majesty, The King, at the conclusion of which the National Anthem was sung.

A short musical programme followed, which included a pianoforte solo by Miss May Cather, Scottish dances by Misses Barbara Craig and Nancy Robinson; a violin solo by Miss C. Grant; a recitation by Mrs. Varney; a song by Miss Nancy Robinson; a recitation by Mrs. Woodford; and selections by the choir.

Dancing was enjoyed until twelve o'clock.

### WINNIPEG TO VANCOUVER FLIGHT MAKES PROGRESS

EDMONTON, July 18.—Pride of the Western Canada Airways air fleet and second largest machine in Canada, the super-Fokker Universal airplane piloted by W. T. Brinnell, with the principal guests made a fine landing at the Municipal Flying Field at 4:50 yesterday afternoon, on its Winnipeg to Vancouver flight.

The 900-mile hop from Winnipeg to Regina and then Edmonton was completed in 9 hours and 30 minutes, despite a head wind encountered on the first leg of the journey.

### UNEMPLOYMENT MINISTER REPLIES TO CRITICISM

LONDON, July 18.—"My object at the moment is to find work and to find it immediately."

In such words, Rt. Hon. J. H. Thomas, Minister of Unemployment, replied to criticism that his plans did not go far enough. The schemes, he said, were only beginning. He was preparing at present for the coming winter, not for problems of five years ahead, but the maximum that could be done now was being done.

### SOVIET RUSSIA BREAKS RELATIONS WITH CHINA

LONDON, July 18.—Concentration of armed forces along the Russo-Manchurian border and troop movements towards the danger zone were reported from various sources today, after a Soviet note was sent to China breaking off all diplomatic relations between the two great powers of the East.

A Shanghai dispatch reported large Russian forces, escorted by a squadron of airplanes, concentrating near Porganchikava. Another dispatch reported that an attempted Soviet advance across the Amur River in North-east Manchuria had been repulsed. The Russian note, although sharp and decisive, made no mention that the Soviet Union would take armed action in an effort to recapture the Chinese Eastern Railway in Manchuria, lately seized by the Nanking government.

### WEATHER AND TENNIS BOTH BRILLIANT

Interior Tournament Concludes Under Blazing Skies With Keen Play In Hard-Fought Finals

Clear Okanagan skies looked down upon the seventh annual Open Tennis Tournament for the Championships of the Interior of British Columbia, which was staged on the courts of the Kelowna Lawn Tennis Club all last week, the weather man, as has been the case with preceding tournaments, favouring the contestants with the best he has to offer. The hottest day of the week fell on the final day, Saturday, when in the afternoon, approximately five hundred people witnessed the concluding events, this number exceeding last year's attendance.

The class of play exhibited was generally conceded superior to that ever seen on the local courts, for which the comparatively large number of Coast entries were responsible. Although local players did not reach the semifinals in any of the leading events, with the exception of the Veterans, Doubles and Junior Boys' Singles—they battled hard in the early rounds to supply stiff opposition to their more experienced opponents.

### Ryall Retains Singles Title

T. O. (Ossy) Ryall, B. C. Clay Courts Singles Champion, and with Gordon Shields, of Vancouver, holder of the Pacific N.W. Doubles Championship, retained his title of Singles Champion of the Interior in the final on Saturday with H. Langlie, Singles Champion of the Seattle club, whom he defeated in straight sets. The score was 6-4, 7-5, 6-0. The Seattle player, who met Ryall in the final year, did not provide the same opposition for the Vancouver star this year. Last summer Langlie won the first two sets, but Ryall, characteristically, came up from behind to win the remaining three and clinch the championship.

L. Nordstrom, the young Seattle star, who with Langlie holds the Interior Doubles Championship, very nearly defeated Ryall in the semifinals. The youthful American player has improved wonderfully since last year, and if he continues to better his game, should in a year or two outclass any of the tennis talent demonstrated during the past week. In his match with the Interior Champion, Nordstrom won the first set 8-6; Ryall took the next 6-4, and the final set resulted in the keenest battle of the tournament when the first three games went to the Seattle youth. Ryall rallied to win the next game, which went to deuce many times; Nordstrom won the next, though he was tiring; the Vancouver man, playing steadily and shooting with greater accuracy than his opponent, won the next four games in a row to lead 5-4; Nordstrom took the next to tie the score at 5-5. Spectacular play followed when both players fought hard, but Ryall, by going to 7-4, with Nordstrom obviously "all in," Ryall captured the two needed games to win the set 9-7 and enter the final against Langlie.

### Thrilling Finish in Men's Doubles

The Men's Doubles final, in which Langlie and Nordstrom defended their title against Shields and Ryall, was undoubtedly the most thrilling of any of the final contests. The Seattle players provided a better brand of tennis than their opponents, winning by the score of 10-8, 6-3, 4-6, although it was a tactical royal all the way. Shields did not show to advantage and Ryall's work at times lacked its usual brilliancy. The first set was keenly contested, the top players of the tournament struggling hard for supremacy in eighteen games of fast tennis; the second set occupied less time, and in the third the Canadians rallied to win the only set they were destined to capture. By winning the next set, the Interior Champions defeated the Pacific Coast titleholders.

### Miss Leeming Captures Ladies' Singles

Miss A. King, of Vancouver, who last year won the Ladies' Singles Championship, went down to defeat in the final with Miss Hope Leeming, of Victoria. Miss Leeming won the first set 6-4 and the final game 6-2, the second set going to Miss King, who, after a succession of deuce games, won it 6-4. While the play in this event was not particularly spectacular, it was a struggle throughout. The Victoria player was steeper than her opponent.

### Vancouver Furnishes All Finalists In Ladies' Doubles

In the Ladies' Doubles final, four Vancouver players fought for the championship in an evenly contested match when Mesdames Ross and Muir defeated Misses King and Tatlow 6-2, 8-10, 7-5. The winners experienced little difficulty in taking the first set, but the second and final were in doubt until the last service had been made. Langlie and Miss Strauss beat Dreyfus and Mrs. Ross in the Mixed Doubles final with little difficulty, winning in straight sets 6-4, 6-3.

The Veterans Doubles final went to Stirling and Stubbs, 6-4, 3-6, 6-2. Metcalfe and Craig being the vanquished opponents.

The Boys' Junior Singles final was an interesting event, the finalists, R. Ford and H. Aiken, giving a very good exhibition for juniors. The boys were evenly matched, but Ford, who lost the first set 3-6, won the next 7-5 and played a slightly superior game in the final to win 6-4.

FIVE TONS OF SILVER  
FOR MOTION PICTURES

Though China and India continue  
the world's largest markets for silver,  
each consuming about twice as much  
as the United States, nevertheless one  
company alone—the Eastman Kodak  
Company, of Rochester, N.Y.—is re-  
sponsible for taking five tons of  
silver a week off the market. This  
order is bettered only by the United  
States mints, says "Oil Power." Most  
of this is used in the manufacture of  
more than 200,000 miles of moving pic-  
ture film a year. The base of the film is  
cotton, which is made into cellulose  
nitrate, or cellulose acetate, in the mak-  
ing of safety film. The silver emulsion  
for coating the film is made by dissolv-  
ing 42-lb. bars of pure silver nitrate,

which is heated and added to a solu-  
tion of potassium bromide, potassium  
iodide, and gelatine. A light-sensitive  
silver salt is precipitated, and held in  
suspension by the gelatine.

Mr. Hugh Savage, editor of "The  
Covian Leader," last week was elect-  
ed president of the Canadian Weekly  
Newspapers Association at the conven-  
tion of this body held in London, Ont-  
ario. He was vice-president last year.  
The Association, with a membership  
approaching five hundred newspapers,  
covers Canada from Coast to Coast.  
The Vernon News was adjudged win-  
ner of the Mason trophy for the best  
paper of a town of 1,500 population or  
over.

BOYSCOUT  
COLUMN

1st Kelowna Troop

Troop First! Self Last!  
Edited by "Pioneer"

July 16th, 1912.  
Orders for week ending 24th July,  
1912:

Duties: Orderly Patrol for week,  
Lynx; next for duty, Eagles.  
Rallies: There will be no rallies of  
the Troop until further and special  
notice.

The Patrol standing is the same as  
last week with the exception that the  
Beavers, Wolves, Lynx, Eagles, Otters  
and Foxes lose 120 points each for in-  
complete ticket returns and the Owls  
10 for no reports on Friday and Mon-  
day last.

Our best wishes are extended to a  
former member of our Troop, Jimmie  
Stuart, who with his family has moved  
to Vancouver, and who will be much  
missed by his old Cub and Scout  
friends.

We print the following from the  
Scout page in last Saturday's Province:  
"Winnipeg, July 13—Bound for  
Birkenhead, England, where they will  
participate in the International Boy  
Scout Jamboree, twenty Boy Scouts  
and their Leaders from British Colum-  
bia, Yukon, Alaska and Manitoba,  
left Winnipeg this morning over Cana-  
dian National Railways for Ottawa. At  
Ottawa, one week's training will be  
given the boys before they sail for Eng-  
land. Heading the British Columbia  
delegation is Norman Saunders, Secre-  
tary of the Boy Scout movement for  
the Province. Not the least interesting  
member is Robert Gray, a full-blooded  
member of the Tsimpsian Indian tribe  
at Port Simpson, of which his father is  
chief. This boy is a King's Scout."

"A boy from White Horse, Alaska,  
Tom Watson, was chosen to represent  
the Yukon, and is making his first trip  
'outside.' There are eight boys in all  
from British Columbia. The Manitoba  
boys are headed by E. F. Mills, Field  
Scout for the Province. There are  
eleven boys from Manitoba. Several  
of the boys are King's Scouts. The  
boys who will represent Canada at the  
Jamboree are the pick of the West.  
Each one had to write tests and come  
up to the highest standards of Scout  
training."

"As the Continental Limited pulled  
out of the station, the Scouts were  
given three cheers by a farewell dele-  
gation, chosen to see them off."

## OKANAGAN CENTRE

The garden party put on by the  
Women's Institute last Wednesday  
afternoon, the 10th, proved a delight-  
ful affair with a good crowd in at-  
tendance. Held by the kind invitation  
of the President, Mrs. Venables, the rough-  
ly enjoyed a splendid display of flow-  
ers which was set off by a natural  
background of wild shrubs, rocks and  
creepers with the sparkling lake  
stretching away in front.

A special feature of the entertain-  
ment was a number of very fine recit-  
ations given by Mrs. Drinkwater, Mrs.  
Liverside and Miss Jean McKaye, all  
of Oyam.

Tea was served on small tables in  
the garden while the large living-room  
of the house was devoted to an inter-  
esting display of handicrafts, which in-  
cluded several rugs, hooked and braid-  
ed, crochet work, fine-needle basketry,  
gloves, leather-work, felt flowers, hand-  
bags, pen-painted table centres; and a  
number of articles of furniture made  
by the class in reed-craft held recently.

Among the guests from a distance  
was noted Mrs. C. Campbell-Brown,  
late of Montreal, with her hostess, Mrs.  
Powley, of Winfield.

The receipts from the sale of tea  
amounted to \$16.00, which is to be de-  
voted to hospital work.

The tournament for the tennis cham-  
pionships of the Interior of British Col-  
umbia, held at Kelowna, was largely  
attended on Friday and Saturday last  
by enthusiasts of the sport in this com-  
munity. Competitors entering from the  
Okanagan Centre Tennis Club included  
Messrs. Gibson, Pixon and Williams.

The pile-driver has been anchored at  
the wharf since Saturday last, the crew  
camping in a large tent nearby while  
they are replacing many of the protect-  
ing dolphins.

The annual school meeting was held  
Saturday evening at the School-house  
with an unusually small attendance.  
Mr. J. L. Logie was in the chair.

Mrs. T. A. Gray was elected Trust-  
tee to succeed herself. Recommendation  
was made to the Board to supple-  
ment the teacher's salary sufficiently  
to make it \$1,000.

Mr. and Mrs. L. Seeman and family  
came in on Sunday, motoring from  
their home in Seattle via Wenatchee  
for a flying visit with Mrs. Seeman's  
parents, Mr. and Mrs. T. A. Gray. They  
departed on Monday evening, leaving  
the two older children, Ralph and  
June, for a fortnight's holiday.

A jolly evening was spent by a good-  
sized crowd of grown-ups and child-  
ren at the Community Hall on the 9th  
as guests of the Rutland Scouts  
under Scoutmaster Gray. This sing-  
song, concluding their encampment at  
the Centre, was to have been held  
around a camp-fire, but high winds  
making a fire dangerous, the crowd ad-  
joined to the Hall. Stunts by the  
boys, including a very well presented  
little sketch, and community singing  
made the time pass quickly while the  
cocoa boiled, when refreshments were  
served by the Scouts, after which all  
joined heartily in singing "O Canada"  
and "God Save the King."

None but complimentary remarks  
are heard on the conduct of the boys  
in the two camps which have been held  
here the last two summers, and they  
will receive a warm welcome if they  
have found it pleasant enough to re-  
turn another year.

1ST RUTLAND  
TROOP

"Do A Good Turn Daily"

Orders for the week ending July 20:  
The Troop will parade on the school  
field on Friday, at 7:45 p.m. sharp, in  
full uniform.  
Duty Patrol: Kangaroos.

Our annual camp has now passed  
into Troop history and the boys are  
home again after a pleasant week  
spent beside the Okanagan Lake, in the  
vicinity of Okanagan Centre.

Going in on Wednesday, July 3rd, by  
train, the first day was spent in putting  
the camp in order, constructing tables  
and camp kitchens. The Troop was  
divided into two patrols: the Kangar-  
oos, having only 3 in camp were divided  
amongst the Seals and Beavers. The  
latter patrol was under Troop Leader  
Ken Bond, with A. Duncan acting  
Second, until the arrival on the Satur-  
day of Second Leslie Smith. The Seals  
were handicapped by lack of experi-  
enced campers, but Peter Acland, a new  
recruit, was placed in charge with Sec-  
ond M. Levitt as his assistant. So well  
did this patrol apply itself that, in spite  
of not having had a number in camp  
previously, they walked away with the  
Camp Patrol Competition, but that is  
another story!

The S.M. had the assistance of two  
A.S.M.s up to the Sunday evening,  
when James Campbell had to leave.  
A.S.M. Greville Harrison acted in the  
capacity of Quartermaster for the en-  
tire period of the camp, as well as act-  
ing as Assistant.

A new 8x10 wall tent presented by the  
local Association, was used as stores  
tent and headquarters.  
While we were not bothered with  
rain, the weather conditions were not  
as good as some years, there being a  
lot of windy weather and cool nights,  
keeping the water temperature at such  
a low level that swimming was not the  
great attraction that it usually is.  
"Morning dips" at 6:30 a.m. being a  
particularly Spartan affair.

Thursday and Friday passed un-  
eventfully, the boys adjusting them-  
selves to camp routine and making a  
certain amount of progress with Scout  
work.

Saturday was a big day, a bad start  
being made, however, when Troop  
Leader Bond cut his head while diving.  
Necessitating a trip to the doctor.  
The day's injury was not severe  
enough to keep him away from camp,  
it eliminated him from the swimming  
sports temporarily, handicapping us  
very much in contests with the Sea  
Cadets, who were camped about a mile  
north of us.

By arrangement with Mr. Harrison,  
commanding the Cadets, we held a  
number of races on the Saturday after-  
noon. The Sea Cadets succeeded in  
winning three out of four of the land  
events; the tug-of-war, relay race, and  
knot tying contest, our only victory be-  
ing the obstacle race, in which Andy  
Duncan and T. Blascovitz gained first  
and second place respectively.

The water being too rough, the water  
sports were postponed until Tuesday  
morning. In these the Scouts were al-  
so on the short end, winning only one  
event, the tug-of-war. In the diving P.  
Acland gained second place, and in the  
50 yards breast stroke Acland came an  
easy first, with K. Bond, second. The  
relay was won easily by the Sea Ca-  
det team. While we were unsuccessful  
in most events, we nevertheless had  
some good fun, and hope to meet the  
Cadets again, and perhaps turn the  
tables, next time.

Sunday was a fine hot day, and we  
were favoured with a great number of  
visitors, parents and friends of the  
boys. About twenty stayed for supper  
and sampled the camp menu. A church  
parade was held in the afternoon, at-  
tendance being voluntary. About twelve  
Scouts marched to the United Church,  
headed by our friend the Piper.

Monday, another fine day, we had  
an enjoyable trip up the lake on Mr.  
Rutland's launch "Cloverly," travelling  
as far as Otter Bay, where the Vernon  
Scout Camp is held every year. We  
were disappointed to find the Vernon  
boys had just broken camp, the last  
party just about to leave as we ar-  
rived. We had the opportunity of look-  
ing over their camp site, and consider  
that it comes nearest to being the ideal  
camp site of any we have ever seen. We  
envy the Vernon boys their wonder-  
ful location.

Tuesday was devoted to passing of  
tests, and a big list of passes was  
recorded, the interest in the patrol com-  
petition warming up very considerably.

Wednesday, our last day in camp,  
saw all preparations for departure made  
in the morning, the afternoon being  
kept clear for swimming contests, be-  
tween patrols.

The races were composed of the First  
Class swimming test—50 yards, any  
style—and the various tests for the  
swimmer's proficiency badge. By this  
means there was a double incentive to  
enter, as each competitor, even though  
finishing last, stood a chance of quali-  
fying for a badge and passing his First  
Class swimming test.

The Seals were winners in most of  
the events as the following list shows:  
50 yards swim, any style: 1st, P.  
Acland, Seals; 2nd, Ken Bond, Bea-  
vers; 3rd, T. Pearson, Seals.  
100 yards Breast Stroke: Same as  
above.

50 yards with clothes on: 1st, Acland;  
2nd, J. Mugford; 3rd, T. Pearson.  
Undressing in water beyond depth:  
P. Acland, only competitor successful.  
Diving for weight: P. Acland and A.  
Duncan, Beavers, only successful en-  
tries.

50 yards on the back: 1st, P. Acland;  
2nd, K. Bond; 3rd, T. Pearson.

This last was a very close race,  
Bond leading until the last few sec-  
onds, Messrs. LePargneux and A. E.  
Harrison acted as judges and examiners.

The truck arrived to take the Troop  
home once more, at the conclusion of

Mr. and Mrs. W. Mohr and daughter  
Iola, of Vernon, are now residing here  
while Mr. Mohr is in charge of the  
packing house of the Vernon Fruit  
Union.

## CANADIAN LEGION

Of The  
BRITISH EMPIRE SERVICE  
LEAGUE

Good progress is being made on our  
new quarters adjacent to the old build-  
ing, and a striking structure, one of  
which we might well be proud, is rap-  
idly nearing completion.  
Unless something untoward occurs,  
the formal opening of our new home  
will take place on August 1st.

## WESTBANK

Mr. and Mrs. William MacKay and  
Doris are visiting their son, Mr. Syd-  
ney MacKay. They came by motor car  
from Vancouver on Saturday.

Mr. Ezra Johnson is confined to his  
bed with an attack of pleurisy.

Mrs. Sydney MacKay and Shirley  
are suffering with a bad attack of  
measles.

Miss Eileen Stewart, of Kamloops,  
arrived on Sunday to stay with her  
uncle and aunt, Mr. and Mrs. S. J.  
Hewlett.

Mr. H. S. Drysdale has moved from  
the hotel to the Campbell ranch on  
the lake shore.

Miss Grace Hewlett left for Victoria  
last week to spend part of her vaca-  
tion there.

Miss Doris Paynter is spending a  
week with her aunt, Mrs. R. McNair  
Wilson, at East Kelowna.

Mr. T. Wells and Eric motored up  
from Kaledon for the week-end.

the races, and the boys were soon  
"all aboard" for Rutland and "Home,  
Sweet Home."

While in camp we were much in-  
debted to Mr. Kennard, near whose  
property we camped, for use of his  
cool cellar to keep our butter and other  
articles of food in, and for a generous  
supply of home made ginger beer with  
which Mr. Kennard supplied us daily.

The following is a list of the tests  
passed while in camp:

Tenderfoot, complete: P. Acland, T.  
Pearson, G. Campbell, D. Molnar, R.  
Smith, W. Hardie, C. Blenkarn.  
Second Class, complete: Marvin  
Levitt, Andrew Duncan.  
Swimmer's proficiency badge: P. Acland.

1st Class Swimming: P. Acland, T.  
Pearson, A. Duncan, C. Hall, J. Mug-  
ford, W. Hardie.

In addition to the above a large  
number of those who completed their  
Tenderfoot also passed a number of  
second class tests, though not complet-  
ing all tests for the badge.

As usual, the evening "camp-fire"  
proved an enjoyable part of the day's  
programme. This year, however, the  
programmes were not so elaborate, due  
to such a large proportion of the boys  
being new to the Troop, only the  
A.S.M.s and the Troop leader having  
been to camp with us before. On two  
occasions the wind was too strong to  
allow a camp fire to be lit.

On the Saturday night we were  
guests of the Sea Cadets at their camp  
fire, together with a number of the  
residents of the Centre. An enjoyable  
programme of recitations, songs and  
choruses was given, and the boys re-  
turned to camp at the witching hour  
of midnight to the strains of the bag-  
pipes, played by piper Adam Smith of  
the Centre.

Tuesday evening we had extended  
an invitation to residents of the district  
to attend our last "camp-fire," but the  
weather man was not kind, and the  
wind blew so strong that we had to  
cancel our plans. Rather than dis-  
appoint the number of Centre friends  
that gathered for the event, we ar-  
ranged for the use of the Community  
Hall and gave our programme there-  
in. The boys were just as much at  
ease as around a camp fire, and things  
did not go as well as they possibly  
might have, had we held our enter-  
tainment around the blazing fire as  
originally planned. We were indebted  
to Mr. Pixon and to Sea Cadet Buck-  
ley for assistance with the programme.

The Patrol competition was won  
handily by the Seals, the final stand-  
ing being: Seals, 410 points; Beavers,  
243 points.

A. W. GRAY,  
Scoutmaster

Princeton is now listed among those  
places adding an auto camp to its pub-  
lic attractions. The camp has been  
fitted up and put in order for tourists.  
It is centrally located and excellent  
shelter from the sun and wind is afford-  
ed. Direction signs, to assist travelers,  
are being erected close to the camp.

THE PRAIRIE  
FRUIT MARKET  
BULLETIN

Current Prices And Market Conditions  
(From the weekly Bulletin issued by J. A. Grant, Fruit Markets Commissioner, Calgary).

Calgary, July 13, 1929.  
The Week In Calgary

Calgary has been in fête all this week. The Stampede is on and record crowds are daily in attendance. Weather, with exception of a few showers, has been perfect. It has curtailed country business and, as housewives are taking in the show, little preserving of fruit is being done.

The market is well supplied with strawberries, raspberries and cherries from B.C. We refer elsewhere to a car of unwanted imported raspberries from Washington, the first car to come in for several years. The car came in on Monday, the raspberries were good, but sales were slow. Three hundred crates remained in the car on Wednesday. The railway officials, thinking it empty, pulled it out along the Crow line. It was returned next morning and helped to further depress the raspberry market.

Today the first car of new potatoes arrived from Ashcroft. Two cars of hothouse tomatoes and cucumbers arrived this week from Victoria. Cherries are showing up at all prairie points. They are of fine quality and prices are low enough to make them tempting. The influence of cheap berries, just ahead of the cherry season, is hard to overcome and there is a tendency to want everything at bargain counter prices.

Ontario reports strawberries selling at from 6c to 12c per quart, and poor quality.

The total car movement of B.C. strawberries this year is 87, or about three cars more than last year.

## Remove Temptation

The value of keeping a market hungry for a few days before rolling in any commodity is well known to the wholesale trade, as it gives a healthy start to the commodity and prices reflect the supply and demand.

This season there have been two notable defections from this custom. First, Edmonton jobbers, finding that rain prevented B.C. from shipping, brought in a car of Hood River berries, which arrived just two business hours ahead of the delayed B.C. shipments. The result was that retailers were loaded with stuff they had their money in, and B.C. prices were lowered to move, and from that date until the end of the strawberry season prices were far below the cost of production and everybody lost money.

Calgary jobbers succumbed to the temptation of bringing in a car of Puyallup raspberries. It was Stampede week and the market was loaded with over-ripe strawberries and beautiful cherries from B.C., as well as plums, apricots and peaches from California. B.C. raspberries were coming in fair volume each day, and retailing at 25 cents per hallock. It looked to them as if a good profit could be made on an imported car of raspberries and between the broker and the jobber the car arrived very early, on Monday. The cost laid down was \$4.55 per crate. The retail trade held off buying as price was too high, with the result that by Wednesday hallocks were offered at 15 cents. This means a great loss to the jobber, but the B.C. shippers who sent L.C.L. to Calgary had to roll them to Saskatchewan to avoid the slaughtered price in Calgary.

Today's correspondent reports show that jobbers in Saskatchewan and Manitoba are importing raspberries right in the B.C. season. The duty of two cents per lb. does not keep out imported stuff. It remains very tempting and has often spoiled the B.C. shippers at the start of their commodity season. A stiff (Continued on Page 6)

## LETTERS TO THE EDITOR

DOES PASTEURIZATION  
DESTROY TYPHOID GERMS?

Kelowna, B.C., July 12, 1929.

To the Editor,  
Kelowna Courier,  
Dear Sir:

In your issue of July 11th there appears an article by Dr. Ootmar on the outbreak of typhoid fever. These articles, which appear from time to time are certainly most helpful, they are very much what we need, and the thanks of the community are due to Dr. Ootmar.

Although an ignorant layman on such matters, I should like, however, to take some exception to the Doctor's remarks on pasteurization. The remark is as follows: "The city water, tested at regular intervals, is perfectly safe. We could say the same of the milk when all the milk consumed in Kelowna is pasteurized..." which undoubtedly implies that pasteurized milk would be safe from typhoid germs.

Most people of any education believe that it takes a temperature of 212 degrees F., sustained for about half an hour, to destroy these germs, and if I am wrong, I would be pleased to have Dr. Ootmar correct me.

Further, suppose the milk in the Grade A dairies were pasteurized, and one of the hands employed was a carrier, as Dr. Ootmar suggests, and that the pasteurization did destroy the germs, still the milk in Kelowna, Grade A or Grade C, is mostly bottled and certainly capped by hand, which gives lots of opportunity for the germs to enter.

I will frankly admit that I am not a believer in pasteurization, which is known to destroy many if not all the vitamins in milk, rendering it necessary to supply fruit juices or other vitamins when this milk is used for babies, and I am a believer in using all the fresh foods we can, and have yet to be convinced that we suffer much if at all thereby, PROVIDED the strict cleanliness is observed.

I am a patron of one of Kelowna's Grade A dairies, which I often inspect, and I am pleased to say that I have no qualms at all in consuming all of their milk that I can.

I must apologize to Dr. Ootmar, who has worked so hard for the benefit of the health of the community for taking him to task like this, but I feel that his words would carry so much more weight, if we really knew what temperature does destroy these germs?

I am, Sir,

Yours truly,

S. M. GORE.

OKANAGAN COW-TESTING  
ASSOCIATION

## Butter-Fat Results For the Month of June

The cows in the following list of the Okanagan Cow-Testing Association's test results during the month of June are arranged in two classes: animals three years old and over, which gave not less than 50 lbs. of butter-fat during the month, and cows two years old, which gave not less than 40 lbs. The name of the cow is given first, then number of days since freshening; breed, lbs. of milk, lbs. of butter-fat, total fat from Herd Book, and name of owner.

Three Years and Over, 50lbs.	
1. Black Pansy, 147, Jersey-Holstein, 1,695, 729, 427.1; Springfield Ranch, Lavington.	
2. Daisy, 64, Holstein, 1,866, 69.7, 140.2, Fred Day, Kelowna.	
3. Jean, 76, Holstein, 1,761, 66.9, 165.2; A. W. Lewington, Okanagan Landing.	
4. Rose, 46, Holstein, 1,440, 64.8, 92.4; J. Spall, Kelowna.	
5. May, 91, Holstein, 1,842, 64.5, 143.7; A. H. Crichton, Kelowna.	
6. Loney, 141, Holstein, 1,725, 63.8, 289.7; J. Spall, Kelowna.	
7. Kate, 81, Holstein, 1,650, 62.7, 173.1; Fred Day, Kelowna.	
8. Molly, 122, Holstein, 1,893, 62.5, 272.4; Coldstream Ranch, Coldstream.	
9. Merrythought, 204, Holstein, 1,509, 60.4, 410.1; J. Spall, Kelowna.	
10. Bessy, 51, Jersey, 1,338, 60.2, 91.7; R. White, Lavington.	
11. Babe, 51, Jersey, 1,338, 57.5, 97.8; C. F. Cover, Enderby.	
12. Darkie, 75, Jersey, Shorthorn, 1,101, 57.3, 133.1; G. G. Maule, Swan Lake.	
13. Jane, 245, Jersey, 1,272, 57.2, 505.0; Ross Lockhart, Armstrong.	
14. Pansy, 65, Holstein, 1,812, 56.2, 113.1; R. Durnin, Kelowna.	
15. Bella, 56, Guernsey, 1,146, 56.2, 106.2; W. R. Powley, Winfield.	
16. Pat, 185, Holstein, 1,800, 55.8, 293.9; Louis Marshall, Kelowna.	
17. Ruth, 125, Holstein, 1,296, 54.4, 231.7; Bird Bros., Armstrong.	
18. Dairymaid, 94, Jersey, 957, 53.6, 146.5; R. White, Lavington.	
19. Penelope, 127, Guernsey, 1,011, 53.6, 231.7; Mrs. Fitzmaurice, Vernon.	
20. Daisy, 35, Jersey, 1,245, 53.5, 60.6; G. G. Maule, Swan Lake.	
21. Pansy, 150, Jersey, 1,371, 53.0, 268.5; Ross Lockhart, Armstrong.	
22. Dot, 187, Holstein, 1,545, 52.5, 330.4; Coldstream Ranch, Coldstream.	
23. Jean, 170, Holstein, 1,587, 52.4, 286.4; Fred Day, Kelowna.	
24. Pansy, 141, R. P., 1,308, 52.3, 223.0; Mrs. Fitzmaurice, Vernon.	
25. Lucy, 216, Holstein, 1,245, 52.3, 263.1; Louis Marshall, Kelowna.	
26. Brindle, 38, Jersey, 1,272, 50.9, 64.5; J. Hopkins, Armstrong.	
27. April, 164, Holstein, 1,410, 50.8, 252.4; Fred Day, Kelowna.	
28. Cora, 117, Jersey, 909, 50.0, 213.9; Springfield Ranch, Lavington.	
29. Ruby, 84, R.P., 1,137, 50.0, 156.6; Mrs. Fitzmaurice, Vernon.	

Two Years Old, 40 lbs.

1. Tilly, 15, Holstein, 1,734, 57.2, no record yet; Coldstream Ranch, Coldstream.	
2. Jennie, 266, Jersey, 816, 56.6, 402.7; J. Dockstader, Armstrong.	
3. June, 27, Jersey, 1,161, 47.6, no record yet; Jas. McCallan, Armstrong.	

If the habit of wearing clothes made mankind hairless, this no-stocking fad is going to be a big thing for the safety razor people.

The midnight oil now is fusel oil.

## CHURCH NOTICES

ST. MICHAEL & ALL ANGELS.  
Cor. Richter St. and Sutherland Ave.  
July 21st, 8th Sunday after Trinity.  
8 a.m., Holy Communion.  
9:45 a.m., Boys' and Girls' Fellowship. Kindergarten will not meet.  
11 a.m., Matins, Litany and Sermon.  
7:30 p.m., Evensong and Sermon.

RUTLAND and EAST KELOWNA (Anglican).—There will not be any services this month.

THE UNITED CHURCH OF CANADA.—First United, cor. Richter St. and Bernard Ave. Rev. A. K. McMin, B.A., Minister. Donald Macrae, Organist and Choirmaster.

Dr. A. S. Tuttle, of Edmonton, Alta., special preacher for July.

10 a.m., Church School. All Departments except the Young People's.  
11 a.m., Morning Worship. Subject: "Rest."  
7:30 p.m., Evening Worship. Dr. Tuttle will take for his subject: "Finding God."

BETHEL REGULAR BAPTIST CHURCH, Richter St. Pastor, Mr. G. Thornber.

Sunday School and Bible Class, at 10:30 a.m.  
Gospel Service at 7:30 p.m.

Wednesday evening at 7:30 Prayer Meeting.  
A cordial invitation is extended to all to worship with us.

FREE METHODIST CHURCH.—Richter Street, North.  
Preaching each Sunday at 11 a.m. and 7:30 p.m.

Sunday School at 10 a.m.  
Prayer Meeting, Wednesday, at 8 p.m. Rev. J. J. Walker, Pastor.

SALVATION ARMY—Sunday, 11 a.m., Holiness Meeting. 2:30 p.m., Sunday School. 7:30 p.m., Salvation Meeting. Public Meeting, Thursdays 8 p.m.

CHRISTIAN SCIENCE SOCIETY.—Sutherland Block, Bernard Avenue, opposite Palace Hotel. This Society is a branch of The Mother Church, the First Church of Christ Scientist, Boston, Mass. Services: Sunday, 11 a.m.; Sunday School, 10 a.m.; first Wednesday, Testimony Meeting, 8 p.m. Reading room open Wed. and Sat. afternoons, 3-5 p.m.

LUTHERAN CHURCH, Cawston Avenue. Pastor, Wm. L. Zersen, phone 150-R2. Sunday, July 21st. German service at 11 a.m. Sunday School at 10 a.m. Saturday School at 9:30 a.m.

GUILD OF HEALTH.—Scripture Study for all interested in the subject of Spiritual Healing.  
Subject for meditation: "The Call of Christ."

St. Matt. 15: 1-9. St. Luke 9: 37-48. John 14: 8-14. St. Matt. 16: 13-16. St. Matt. 8: 1-4. St. John 6: 47-59. St. Matt. 16: 24-27.

The call of Christ to His first disciples came from His heart, and so it went straight to theirs and awakened a response. If we would draw others to Christ, our hearts must be wholly His; then He can fill and overflow them with His Divine love and teach us that language of the heart which alone can reach the hearts of others.

## REVOLUTIONARY IN 1924—STILL MORE SO TODAY

APR 19 1924

"It was inevitable that Chrysler should attract a degree of scientific interest accorded no other car in the past fifteen years. + Engineers, naturally, were first to appreciate that Chrysler, while adhering strictly to soundest principles of design, is a distinct departure from previous motor car practice and performance. + They recognize in Chrysler an advance in automobile engineering as revolutionary as the development of the X-ray in medicine."

—Advertisement  
April 19, 1924

## HOW HAS CHRYSLER DONE IT?

When an unknown motor car sets out—as Chrysler did—to grasp the leadership of a great industry, and with the speed of a meteor, sweeps to a foremost position in popularity and sales, it must possess extraordinary quality and ability.

When the first Chrysler car was placed on exhibition five years ago, the whole industry looked in amazement at what Walter P. Chrysler had accomplished. Within four years, Chrysler had leaped to third place in the industry.

How has Chrysler done it? What is the secret of this success? Simply that Chrysler gave in the beginning—each year since has given increasingly—and

today gives in still greater measure—not only a finer grade of basic quality but a higher order of performance, beauty, style, power, acceleration, safety, comfort—all at most reasonable prices.

Such sweeping success must prove inevitably to the buyer of a Chrysler car today that he can count on the most advanced, the soundest, the safest and the most satisfying motor transportation his money can command. Let us prove these facts in a demonstration.

CHRYSLER "75"—\$1985 to \$3050—Eight Body Styles. CHRYSLER "65"—\$1325 to \$1460—Six Body Styles. All prices f. o. b. Windsor, Ontario, including standard factory equipment (freight and taxes extra).

## A Water Pipe Was Driven Through the Cable

When city workmen were putting in a new water service line in Vancouver on June 14, the water pipe was driven through a telephone cable, putting about 600 telephones out of order.

With 150 pounds of water pressure to drive it on, the water pipe had punched its way through the wooden duct enclosing the cable, the lead sheath and the service wires, and soaked the lines with water, a deadly enemy of telephone circuits.

Telephone men went without sleep and worked steadily for two days, restoring service.

"Just look down that street—every store you see has an awning! There certainly is a wonderful market for canvas goods out here. And the best of them you will find are made in B.C. Perhaps you don't realize there are 8 firms manufacturing tents and awnings in this province. A \$65,000 payroll is the reward to the 60 people employed in that trade. And they earn it by producing as fine an article as can be bought anywhere."

**B.C. PRODUCTS BUREAU**

Lord Dewar, as famous for his wit as for his whisky, was once introduced to a young lady named Moore-Moore. Later in the conversation he inadvertently addressed her as Miss Moore. "Your lordship," she said crisply, "my name is Moore-Moore—with a hyphen."

"Ah, yes, I'm sorry. And mine is Dewar-Dewar, with a siphon."—Boston Transcript.

## THE KELOWNA COURIER

AND  
**Okanagan Orchardist.**

Owned and Edited by  
G. C. ROSE

**SUBSCRIPTION RATES**  
(Strictly in Advance)  
To any address in the British Empire, \$2.50 per year. To the United States and other foreign countries, \$3.00 per year.

The COURIER does not necessarily endorse the sentiments of any contributed article. To ensure acceptance, all manuscripts should be legibly written on one side of the paper only. Typewritten copy is preferred. Amateur poetry is not published.

Letters to the editor will not be accepted for publication over a "nom de plume"; the writer's correct name must be appended.

Contributed matter received after Tuesday night will not be published until the following week.

**ADVERTISING RATES**

Contract advertisers will please note that their contract calls for delivery of all changes of advertisement to The Courier Office by Monday night. This rule is in the mutual interests of patrons and publisher, to avoid congestion on Wednesday and Thursday and consequent night work, and to facilitate publication of the Courier on Friday morning.

Changes of contract advertisements will be accepted on Tuesday as an accommodation to an advertiser confronted with an emergency, but on no account on Wednesday for the following day's issue.

Transient and Contract Advertisements—Rates quoted on application.

Legal and Municipal Advertising—First insertion, 10 cents per line, each subsequent insertion, 10 cents per line.

Classified Advertisements—Such as For Sale, Lost, Found, Wanted, etc., under the heading "Want Ads." First insertion, 15 cents per line; each additional insertion, without change of matter, 10 cents per line. Minimum charge per week, 50 cents. Count five words to a line.

Each initial and group of not more than five figures counts as a word.

If so desired, advertisers may have replies addressed to a box number, care of The Courier, and forwarded to their private address, or delivered on call at office. For this service, add 10 cents to cover postage or filing.

**THURSDAY, JULY 18th, 1929**

**CANADIAN CLUB SUCCESSFULLY ORGANIZED**

(Continued from Page 1)

cheons were, no drain on the exchequer except for entertainment of the speaker.

About fifty-four applications for membership had been received, and about all the business to be done that evening was to constitute the Canadian Club of Kelowna and elect officers. Negotiations were under way with the Canadian Club of Vancouver to have an address here from Hon. Mr. Marler, Canada's first Minister to Japan, who would be here probably in August.

At the conclusion of the Mayor's remarks, it was moved formally by Mr. R. G. Rutherford, seconded by Mr. J. Ball: "Resolved, that this meeting proceed to organize a Canadian Club."

Discussion upon the resolution and questions having been invited, Mr. N. D. McTavish enquired whether the luncheons were for the members of the Canadian Club only, or whether non-members were permitted to attend.

The chairman expressed the opinion that the luncheons were supposed to be open only to members, but Mr. H. F. Chapin stated that, at Vancouver, members were permitted to take in friends.

Mr. Rutherford suggested that some member of the Canadian Club of Vancouver be invited to address the Kelowna club upon points on which available information seemed somewhat hazy.

In answer to a question as to whether ladies were eligible for membership, it was stated that membership was restricted to the male sex, but that in many places the ladies were admitted to hear the addresses; also there were very successful Women's Canadian Clubs.

The resolution was then put and was carried unanimously.

**Election of Officers**

Election of officers followed. For President, Mayor Sutherland nominated Mr. F. M. Black. Nominations were promptly closed and Mr. Black was declared elected. Equally rapid procedure installed Mr. H. F. Rees as Vice-President and Mr. E. W. Barton as Secretary-Treasurer.

Mr. T. G. Norris, J. Ball, H. V. Craig and N. D. McTavish were chosen as members of the Executive, in addition to the officers, without the need of ballot.

The membership fee was set at \$2 for the remainder of the year 1929, the amount of the annual fee to be settled later.

Upon the suggestion of Mr. E. C. Weddell, the compilation of by-laws was entrusted to the Executive, the draft to be submitted at a future meeting.

The date of the annual meeting was also left to the Executive, Mr. Rees suggesting that January and February be avoided, owing to so many other annual meetings being held here during these months.

The chairman asked the members to secure as large a membership as possible, so as to ensure a good attendance for any speaker who might come to Kelowna under the auspices of the Club. Other than attendance upon such occasions, there was nothing very much incumbent upon members.

The Mayor stated that there was provision in the Canadian Club of Vancouver for junior members, who were admitted at a reduced fee, so that fathers could bring their sons to hear visiting speakers.

Mr. Rutherford suggested that the Club should be formally constituted as soon as possible, so as to be ready for the reception of Hon. Mr. Marler.

The chairman promised to expedite permanent organization, while Mr. T. G. Norris, as President of the Board of Trade, pointed out that there was no danger of Hon. Mr. Marler not being looked after, as the Board was already making arrangements for his visit.

After brief discussion of some minor details, the meeting adjourned, just one hour after its assembly.

A certain young man has a "B.A." and "M.A." but his "P.A." still supports him.

The normal man thinks he is a great help about the house if he empties his own ash trays.

## A FAST-MOVING AND HARD-RIDING DRAMA

Tarzan, Wonder Horse, Is Equine Star of "The Upland Rider"

"The Upland Rider," the story of a horse, with all the ingredients of a fast-moving and hard-riding drama, packed with even more thrills than are usually found in a picture of this kind, is the advance advertisement of Ken Maynard's latest western feature which comes to the Empress Theatre on Friday and Saturday. The photoplay features Tarzan, the wonder horse, possibly one of the best-known equine players on the screen.

The story is typically modern in scope and deals with two rival horse ranches in the west.

"Uncle Tom's Cabin" is an epic of the Old South, embracing one of the most picturesque and stirring periods in American history. "Uncle Tom's Cabin," the showing for Monday and Tuesday, is known to theatre-goers the world over. As a stage play, it has graced the boards of playhouses on this continent for seventy-five years.

It is said that there is scarcely an actor or actress of the legitimate stage living or acting who has not at some time played a part in "Uncle Tom's Cabin." The names of "Eliza," "Uncle Tom," "Little Eva," "Simon Legree" and "Mark," the Lawyer, are household words.

Universal's picturized version of "Uncle Tom's Cabin" should have an even greater appeal than the stage drama in that the scope of the stage is limited while the settings for a photoplay know no bounds. Realistic scenes dominate throughout this rare old masterpiece and the superb performance of the cast in its interpretation leaves little to be desired.

**Spies**

As its title suggests, "Spies," the offering for Wednesday and Thursday, is a tale of espionage, of the clash of the in the dark as important nations battle for advantages without recourse to armed warfare. The story is a complicated one. Briefly, it concerns the machinations of Haghi, an international banker, to gain power in the disorganized countries of Europe by balking their attempts to sign a treaty which will assure their ailing nations.

One of his lieutenants, Sonia, falls in love with spy No. 326, the cleverest of Germany's secret service men, and sacrifices her master and his nefarious aims to her new love. Through her help, spy No. 326 and his co-workers are able to defeat Haghi's plans.

According to advance reports there is no pause or let-up in the exciting pace of this photoplay. The entire cast is new to Kelowna audiences.

**SUMMER VACATION IS LEISURE HOUR TOPIC**

Canada Offers Attractions Unsurpassed in Diversity

Now that summer is here, a favourite leisure hour topic with a large number of us is the annual vacation. Memories of glorious days spent on the roads and trails through forest or mountain and by lake or stream, lure our thoughts to plans for the future. The delight of anticipation are ours as we pore over maps or pamphlets and think of the days to come.

Canada offers attractions which are unsurpassed in their diversity. East, west or north the roads lead to opportunity and adventure. In order to assist the tourist in planning his trip, the Canadian Government, through its Department of the Interior, issues a series of maps showing the main automobile roads in Canada and the northern States. The sheets which make up the series are the "Atlantic," "Great Lakes," "Middle West" and "Pacific."

Presenting a sufficiently large area on one sheet to cover territory within reasonable touring distance, they are among the very few maps available that show clearly the main highway systems and their connections between the two countries, without unnecessary detail. By their help a point to point itinerary for the round trip may be selected, details of which may be obtained from local, provincial or state highway maps.

In addition to the series mentioned, a general map covering the whole of Canada and all except the extreme south of the United States is issued. This map should prove useful to transcontinental tourists and others planning routes covering large areas. We understand that copies of any of the maps may be obtained free of charge upon request to the Natural Resources Intelligence Service, of the Department of the Interior, at Ottawa, Canada.

**WEATHER REPORT FOR MONTH OF JUNE**

Perhaps abundant resources make a people lazy, but the mosquito family isn't affected that way.

Cold tea acts as a fertilizer for house plants.

## SCHOOL BOARD WANTS SEWER CONNECTION

(Continued from page 1.)

**A Question of Superannuation**

The question of a superannuation allowance for ex-Chief of Police Thomas had come up at previous meetings, owing to receipt of a letter from the Civil Service Commissioner at Victoria, stating that Mr. Thomas had made application for an allowance and requesting the Council to state their attitude in the matter. Decision had been postponed owing to non-receipt of the report of Commissioner Lindley Crease upon the recent investigation held by him, and the Civil Service Commissioner in consequence renewed pressure for a decision by the Council.

It was decided unanimously to object to any superannuation allowance that would entail any further payments by the City on account of Mr. Thomas, and to wire the Commissioner to such effect.

**Police Commissioners Want Stop Signs**

A letter was received from the Board of Police Commissioners stating that, at a meeting of the Board held on July 10th, a resolution was passed asking the Council to establish stop signs at the intersections of the following streets and avenues, in accordance with recommendations made by Acting Chief Constable Murdoch: Ellis Street and Bernard Avenue, Pendozi Street and Bernard Avenue, Water Street and Bernard Avenue, Richter Street and Harvey Avenue, and Pendozi Street and Park Avenue.

**City Police Station**

Another letter from the Police Commissioners drew attention to the unsatisfactory condition of the City Police Station, and recommended that necessary alterations be made to make the building safe and suitable for police purposes, including the installation of steel cells.

**Night Constable For Industrial Area**

A third communication from the Police Board informed the Council that it would be necessary to appoint a night constable for the industrial area, commencing August 1st, as in former years.

The questions of stop signs and repair of the Police Station were laid over for consideration in committee, while that of a night constable for the industrial area received some immediate discussion.

The Mayor pointed out that there was practically enough office work to keep one member of the police force on duty in the office all day, but the Acting Chief did some patrol work in addition to the office duties. When Vernon had a population of only two thousand people, it had three policemen, and Kamloops, with a present population of five thousand, or only seven hundred more than Kelowna, had five.

Ald. McDonald agreed that the industrial district should have special police protection from August 1st to the end of the packing season. He did not think that comparison with Kamloops in the matter of number of constables was warranted, however, as the northern city had two transcontinental railways and therefore had to deal with many tramps, a trouble that afflicted Kelowna only in minor degree.

**Tourist Report**

The Tourist Agent's report for the period from July 2nd to July 14th, inclusive, showed total fees paid for camping privileges of \$38.25.

**Joint Band Concert In Park**

Ald. Morrison stated that Mr. R. J. Gordon and Bandmaster Lewis had in view a proposal to hold a joint concert by the Vernon and Kelowna Bands in the City Park, the Kelowna Band reciprocating later by going to Vernon, and authority was desired to take up a collection upon the occasion.

The Council had no objection to a collection being taken.

A grant of \$1,000 to the local Band having already been provided for in the estimates, formal authority was given by resolution to pay \$550 of the amount forthwith and the balance at the rate of \$75 per month until December 31st, 1929.

**Additional Area For Anglican Cemetery**

The following resolution was passed in regard to the Anglican Cemetery: "Resolved, that one acre more or less, as may be required to make the plots conform to the general plan of the Cemetery, be reserved immediately west of the Anglican Cemetery; that a survey of the said area be made to enable a legal description of same to be included in a Trust Deed covering the Anglican Cemetery to be executed by the City; also, that the Anglican Church Committee be informed that the City will expect them to place their Cemetery in as clean and tidy condition as the general Cemetery."

**Garbage Collection By-Law**

By-Law No. 508, regulating the collection and disposal of garbage, was read a first time and then referred to committee of the whole.

**Bicycle For Police Use**

The Mayor stated that Acting Chief Constable Murdoch had expressed his willingness to use a bicycle for expediting his work, if supplied with one by the City, and his readiness to take up his abode in the Police Station, if the quarters were made habitable. This would enable him to give closer attention to the custody of prisoners.

These matters will be taken up in committee.

**Public Health**

Ald. Gordon announced that, according to a report to him that day by Dr. Ootmar, Medical Health Officer, there were eleven cases of typhoid in town and three suspects, with no new cases.

Ald. Gordon also reported that he had submitted to the City Clerk a draft of a By-Law governing the duties of the full time Medical Health Officer. When put into shape, it would be forwarded to the Provincial Health Officer for his approval.

It was decided, upon the recommendation of Ald. Gordon, to call for tenders in connection with the provisions of the Garbage Collection By-Law.

The Council adjourned until Monday, July 29th.

## Local and Personal

Mrs. H. V. Craig leaves today on a trip to Qualicum, Vancouver Island.

Miss B. Frey, of Vancouver, is the guest of Mr. and Mrs. D. K. Gordon.

Mrs. W. J. McIntyre left last week for Vancouver, where she will spend a vacation.

Mr. F. W. Elmore and son, Leslie, returned on Monday from a motor trip to the Coast.

Mr. Reg Ross, of General Motors Acceptance Corporation, Vancouver, was in town on business last week.

Miss Edith Trench, of Vancouver, was the recent guest of her uncle, Mr. W. K. Trench.

Mr. J. H. Broad, Manager of the Royal Anne Hotel, returned on Sunday from a trip to the Coast.

Mr. John J. Carney left on Monday by Canadian National for Rochester, Minn.

The Fire Hall siren called out the Fire Brigade on a practice run last night shortly after 7 o'clock.

Mrs. W. A. Newton and family went to Summerland on Saturday, where they will spend a holiday at a summer camp.

Mr. E. R. Gowen, of the Maple Leaf Cleaning & Dye Works, left on Saturday by Canadian National on a business trip to Vancouver.

Mr. and Mrs. Jack Gifford, of New Westminster, spent a few days in Kelowna this week, guests of Mr. and Mrs. H. A. Fairbairn.

Mr. and Mrs. J. C. Farrow and family left on Tuesday on a motor tour of various points in the Interior. They will be away about two weeks.

Mrs. Barclay, of Vancouver, is spending a holiday with her brother, Mr. D. K. Gordon. She is accompanied by her little daughter.

Miss Marjorie Holmes returned on Tuesday afternoon from a two weeks' motor tour of California, Oregon and Washington.

Mrs. Bert Fiddes and family arrived on Saturday from the Coast to join Mr. Fiddes and have taken up residence on Stockwell Avenue.

Mr. and Mrs. J. D. Pettigrew left last week on a motor trip to Coast points. They will go south as far as Seattle, returning home via the Fraser Canyon highway.

Mr. W. Stewart, of Vancouver, arrived in town on Monday to go to work for Mr. R. H. Burns, of the DeLuxe Barber Shop. Mr. Stewart is a barber of many years experience.

Dr. G. A. Ootmar, District Medical Health Officer, reports that no fresh cases of typhoid have developed during the past week. There are three cases of measles in town.

Mr. and Mrs. D. H. Rattenbury and two children, Mary and Jimmie, are leaving Saturday for Alaska. They will travel via Vancouver, and expect to be away about three weeks.

Misses Barbara Trembath and Ada Markham, of Vancouver, arrived by motor on Thursday last via the Fraser Canyon highway. Miss Markham left on Saturday for Penticton, en route to the Coast.

Mrs. John Macaulay and Miss Kathleen Judge left this morning on the "Pentowna" for Penticton, where they will witness the finals of the Southern Interior tennis tourney, which are being played today.

Mr. P. J. Noonan returned on Monday from a motor trip of two weeks duration, during which he covered much country, visiting San Francisco, Reno, Salt Lake City, Wallace, Spokane and other points in the Western States.

Mr. R. M. Hart, of East Kelowna, and sister, Miss Alice Hart, of Scotland, left on Monday on a trip to the Coast. They will go south as far as Portland, and will also visit points on Vancouver Island, returning in about two weeks.

A telegram received today by Mrs. E. R. Bailey, Jr., conveyed the sad news of the passing of her mother, Mrs. W. D. Wilson, at Chilliwack, this morning, after about a week's illness. Mr. and Mrs. Wilson resided here for many years, and a large circle of friends will sympathize with the family in the bereavement that has stricken them.

An extensive outbreak of forest fire on Sunday, supposed to have been started by lightning, did considerable damage at Whiteman Creek, on the west side of Okanagan Lake. White settlers in the district and Indians resident on the reserve there turned out and fought the fire, but they were unable to save the residence on the Willet property, unoccupied at the time, and some other buildings were destroyed.

A number of players from the Kelowna Lawn Tennis Club are in Penticton this week participating in the Southern Interior Tennis Tournament, the finals of which will be played today. The local entrants include Messrs. J. W. Logie, N. E. DeHart and D. Lorne. Mrs. Tallyour and Mrs. Gardner. Messrs. DeHart and Logie motored to Penticton on Sunday morning and following the tourney, will spend a vacation at the Coast.

Alexandra Rose Day, sponsored by the Jack McMillan Chapter, I.O.D.E., was observed on Saturday last and was the most successful in recent years, the sum of \$160.00 having been realized from the sale of roses. This amount will be divided in thirds and will go to the Children's Ward, Kelowna General Hospital, the Crippled Children's Solarium, Vancouver Island, and the High School Scholarship. The Jack McMillan Chapter wishes to extend its thanks to the citizens of Kelowna for their able support of this worthy objective.

## MARRIAGE

## Guttridge—Andrews

A quiet wedding was solemnized at St. Paul's Anglican Church, Powell River, on Saturday evening, June 29th, when the Rev. N. J. Thompson united in marriage Miss Hilda Caroline Andrews, youngest daughter of Mr. and Mrs. A. W. Andrews, of Kelowna, and Mr. Raymond L. Guttridge, formerly of Penticton. Frank Nella supported the couple while Mrs. Evans presided at the organ. The happy couple will reside at Cranberry, B.C.

Mr. W. Maddin, Manager of the Empress Theatre, left on Sunday for Vancouver, where he will attend the convention of Canadian Famous Players Corporation which is in session this week.

WEATHER AND TENNIS  
BOTH BRILLIANT

(Continued from Page 1)

The Mixed Doubles Handicap event was won by Hill and Mrs. Muir, who defeated Fernie and Miss Fernie, of Kamloops, 4-6, 6-3, 8-6.

C. R. Bull outclassed Lutener, of Penticton, in the Consolation Men's Singles final 1-6, 6-1, 6-4.

Miss Strauss, in the Consolation Ladies' Singles, played her usual good game to win from Miss Pease in the final frames, 6-4, 6-0.

## Presentation of Prizes

The finals events were not concluded until about 7:30 o'clock, at which time the various prizes were presented to the winners and runners-up by Mrs. B. F. Boyce. Prior to the presentations, President W. E. Adams remarked that the class of play seen at the tournament just concluded had been superior to that shown at previous tournaments, and he thanked the Coast players for participating.

## Compliments All Round

Mr. F. Nicholson, President of the B.C.L.T.A., called upon by Mr. Adams to speak, said that no less than forty-two clubs were now affiliated with the B.C.L.T.A. He expressed his thanks to Messrs. Shields and Ryall for coming from Portland on Thursday to enter the tournament, driving six hundred miles in twenty hours to do so. They arrived tired, but tennis was a wonderful game and players did not spare themselves to compete.

Mr. J. C. Brown, official referee, in thanking the K.L.T.C. for the good time afforded him during his stay in Kelowna, remarked that this was the occasion of his fifth visit and he would endeavour to come again.

Mr. L. Nordstrom declared that he was glad to be in Kelowna for the second time and that he would return again next year. He appreciated the hospitality of the K.L.T.C.

The prizes were then presented by Mrs. Boyce, assisted by Messrs. E. W. Barton and Bert Johnson, tokens of appreciation going to Mr. Nicholson and Mr. Brown.

During the week a bonfire concert was held on the lakeshore in front of the W. H. H. McDougall house, in which Mrs. G. C. Renfrew is now residing, and on Friday night a dance was given at the Eldorado Arms in honour of the visitors.

The red-clay courts were in excellent condition for play, eliciting much favourable comment from the visiting players.

Credit to no small measure is due to the Tournament Committee, the body responsible for the success of the seventh annual event and to the referee, Mr. J. G. Brown. The Tournament Committee is comprised of the following: Honorary President, Dr. B. F. Boyce; President, W. E. Adams; Vice-President, H. C. Mangin; Committee, Mrs. R. H. Stubbs, Mrs. V. D. Lewis, D. Whitman, O. St. Aikens, F. W. Pridham, A. S. Underhill; Honorary Treasurer, E. W. Barton; Honorary Secretary, H. G. M. Gardner, Assistant referee, W. Metcalfe.

## Is Your Wife Your Business Manager?

IF YOU can answer "yes" to that question, you are fortunate. But if you cannot answer "yes", you ought to spend three or four evenings thinking over your family's financial position in the event of your death. Then you should write instructions for your wife to follow regarding the conduct of the family's affairs should necessity compel her to assume the burden.

When you have discovered what a task it is to write out instructions, think how much greater a task it will be to follow them. One of the first questions will be, "Where is the money coming from to keep the family going?" The answer is "from Life Insurance".

We issue a Pension Bond which guarantees a definite income, to be paid to beneficiaries over a period of years instead of in a lump sum. We shall be pleased to send particulars of this plan to those who are interested. Write for booklet, "Your Key to Happiness", which tells something about it. Address:

## WHALING STILL AN IMPORTANT INDUSTRY

Twenty Whales Captured Off B. C. Coast in First Two Weeks of Season

Some of the old-time picturesqueness may have departed from whaling but the industry is still prosecuted successfully off Canada's western coast, and in the first two weeks of the 1912 season, which began in May, twenty whales were taken by a company operating from Rose Harbor, B.C. The whales taken off British Columbia are

used in the production of oil, meal and fertilizer, and, of course, they are valuable, too, for their whalebone. On the average, the twenty whales taken as the Rose Harbor station began its season ran about fifty feet in length but one big fellow, a sulphur, measured eighty-two feet. Eleven of the twenty were sperm, no less than seven of them being killed in one day. There were seven finbacks, one humpback, and one sulphur.

Examination of the stomachs of these whales indicated that the octopus was a favorite place on the sperm's menu. The finbacks, on the other hand, evidently relish shrimps.

## THE PRAIRIE FRUIT MARKET BULLETIN

(Continued from Page 3)

duty would cure the evil and help jobbers and shippers stabilize the market.

Business is good. There have been several fairly good rains during the week, which were greatly needed, and brightened the crop outlook.

The strawberry deal is about over. Arrivals have diminished from day to day, and prices are firmer. Raspberries and a few logans are arriving daily. Arrivals started on July 2nd with two crates. Arrivals today were 271 crates from B.C. and 21 from Washington. Prices are firm, but retail trade holding off for lower berries.

Receipts of cherries are heavy and the market is overstocked. L.C.L. arrivals for the week were 2,337 crates, and a full car of 1,270 crates.

Some Windors and Royal Annes of very poor quality are arriving, and are not wanted at any price, but only serve to knock and weaken the market of the better fruit.

Chilliwaak cherries are of excellent size and quality, but show too many cracks, dents and actual decay.

Supplies of both old and new potatoes are scarce, and prices are very firm and high. Local grown supplies of lettuce, radishes, spinach, rhubarb, new carrots, more plentiful every day. New crop onions are coming from Washington.

Car arrivals from July 4 to July 10: B.C.—Strawberries, 1; cherries, 1; mixed fruit and vegetables, 2; vegetables, 6.

N.B.—Potatoes, 1.  
Imported—Bananas, 4; cantaloupes, Cal., 1; watermelons, Cal., 1; mixed fruit, Cal., 1; oranges, Cal., 2; lemons, Cal., 1; tomatoes, Miss., 2; onions, Wash., 2; veg., Wash., 1.

Regina  
The weather continues dry with scattered showers in some districts. Business continues good.

The B.C. strawberry deal is practically over and generally speaking has been very satisfactory as far as the condition on arrival is concerned. While it would be impossible to handle a deal of that size without some adjustments having to be made, at the same time the grief experienced other years has been practically eliminated this season.

We have had two part cars of B.C. cherries, various varieties, opening up in the pink of condition. The first straight car of B.C. raspberries will arrive Thursday.

## OKANAGAN MISSION

THE ANNUAL PICNIC FOR ST. ANDREW'S SUNDAY SCHOOL WAS HELD LAST FRIDAY AFTERNOON. MR. AND MRS. W. D. WALKER KINDLY LENT THEIR GROUNDS FOR THE OCCASION. MOST MEMBERS OF THE PARTY ENJOYED A SWIM IN THE LAKE AND, AFTER TEA AND ICE-CREAM HAD BEEN DISPOSED OF WITH GREAT ENTHUSIASM, ALL ADJOURNED TO THE LAWN, WHERE SPORTS WERE CONDUCTED BY MR. WALKER AND MISS MONICA SMITH. THE RECTOR AND MRS. DAVIS WERE OBLIGED TO LEAVE EARLY, BUT THE VEN. ARCHDEACON GREENE REMAINED TO PRESENT THE PRIZES, WHICH WERE AWARDED AS FOLLOWS:

First prize in the Senior Class: Zoe Browne-Clayton; second, Mary Murdoch; special prize for Girl Guides, Primrose Walker.

Second Class: First, Dickie Hall; second, Bob Browne-Clayton.

Third Class: First, Kathaleen Hall; second, Esma Walker.

Fourth Class: First, Yvonne Baldwin; second, Buster Hall.

After the prize-giving was over Primrose Walker read a short address from the pupils of the Senior Class to Mrs. Murdoch, followed by a similar address to Mrs. Baldwin, read by Zoe Browne-Clayton. In these the pupils thanked Mrs. Murdoch and Mrs. Baldwin for their work in the Sunday School, and in conclusion presented them each with a sum of money collected by the class with a request that they should buy themselves some memento with it.

In this connection, Mrs. Baldwin and Mrs. Murdoch would like to take the opportunity of saying that they feel that the thanks they offered on the spur of the moment were quite inadequate to the occasion and they wish the class to know that they were both pleased and touched by the appreciation shown by their pupils.

The Senior Class, most of whom are leaving this term, will be a great loss to the Sunday School and it is hoped that a number of new pupils will come to fill their places.

The Eldorado Arms is very fortunate in having obtained the services of Messrs. Rees, McConachy, and C. W. Harper to entertain their guests during dinner and afterwards on Sunday evenings, with piano and violin. Mr. McConachy, who plays the violin, has been studying under Arthur Hartmann, of New York, and Mr. Harper was a pupil of Dr. William Rea, of Newcastle-on-Tyne, and was a member of the Pereira Shanty Sextette travelling with Chautauqua. Their programme of last Sunday, which will be of interest to many, was as follows:

"La Capricieuse de Nanette, Demande et Reponse, Un Sonnet d'Amour" (Coleridge-Taylor); "Dance Hongroise No. 5 (Brahms); Rondo Caprice (Mendelssohn); "Liedersohne Worte" (Mendelssohn); "Il Trovatore" (Verdi) Air for G String (Bach); Berceuse (Chopin); "Rosary" (Kreisler-Nevin); Legende (Wienawski); "Ave Maria" (Bach-Gounod).

The annual Tennis Dance was held at the Eldorado Arms on Friday, July 12th. About a hundred and fifty guests were present and dancing to the Kelownians orchestra was carried on in the lounge. After the dining room had been cleared for supper the spare floor space was used by the dancers as well.

A buffet supper was served from 11:30 to 12:30. At about 1:30 the home waltz called finis to what everyone agreed had proved an excellent evening.

Mr. and Mrs. F. M. Black entertained a party of friends to dinner at the Eldorado Arms last Wednesday evening. The guests were Mr. G. A. Barrat, Mr. W. J. McDowall and Mr. E. F. Laws, members of the Committee of Direction, and their wives; Mr. Robert Cheyne, secretary of the Committee, Mr. and Mrs. Povah, Rev. Dr. A. S. Tuttle, principal of the Alberta Theological College at Edmonton, and Mr. Donald McRae, their master of the United Church Choir. The music supplied by Mr. McRae was very much appreciated by the whole party.

A party of nineteen from Vernon were welcomed to the Eldorado Arms for dinner last Friday and to the Tennis Dance afterwards.

A dinner party was held also by Mr. and Mrs. H. Craig at the Hotel before the dance.

The same evening Mr. and Mrs. Gervaise Chambers entertained a party of six. Their guests were Dr. and Mrs. G. L. Campbell, Mr. and Mrs. Fraser, Miss Daphne Chambers and Mr. A. S. Burdette.

Also on Friday, July 12th, Mr. E. W. Barton entertained a number of the tennis players to dinner at the Eldorado Arms.

South Africa produces ninety per cent of the world's diamonds.

## UNCLE TOM'S CABIN

"Uncle Tom's Cabin" is an epic of the Old South, and embraces one of the most stirring and picturesque periods in American history. As a stage-play, it has graced the boards of American theatres for 75 years. Through the medium of this beautiful drama, probably the greatest human story ever written, countless stars have been made. There is scarcely an old actor or actress living who has not at some time played some part in "Uncle Tom's Cabin." The names of "Eliza," "Uncle Tom," "Little Eva," "Topsy," "Simon Legree" and "Marks, the Lawyer" are American household words. This motion picture, then, is dedicated to the American people so that there may be preserved for all time a classic of American life that takes rank with the works of Victor Hugo and Charles Dickens in their interpretations of other periods in older lands.

## RUTLAND

Mrs. E. Wanless, of Fort William, Ontario, is visiting Mr. and Mrs. W. F. Schell.

Mrs. E. Mugford arrived home last Friday after visiting friends at Penicton for a week.

The intermediate girls' class at the Sunday School of the United Church have been camping at Woods Lake, through the kindness of Mr. W. Petrie, and spent a very enjoyable time. The girls were chaperoned by Mrs. A. McMillan, who proved herself a real mother to them. The kindness of Mr. and Mrs. Petrie was much expressed by the campers.

Criticism of the steadily growing school curriculum, the practice of keeping pupils in long after the time the school act provides for, and too much home work took up most of the time at the annual school meeting on Saturday evening.

Mr. H. L. Partridge presided over a fair attendance of ratepayers, while Mr. E. S. Bush acted as secretary. The Trustees' report showed that six meetings had been held during the past year. The school grounds had been provided with saw-saws and giant strides as a result of the school concert, and the Trustees thought they had secured to some in any rural district. The Inspector's reports showed that the teaching was fully up to standard and were very complimentary to the staff.

The financial statement showed \$10,931.32 receipts and that among the expenditures, the principal's residence cost \$3,097.64, and his rural schools nurse, \$220.20.

In the discussion which followed it was revealed that the school building and contents were only insured for a value of \$12,000, whereas the original cost of the building was \$25,000. The feeling was expressed that the insurance value was too low, and it was decided to have a revaluation with a view to having sufficient insurance carried in case of fire.

Mrs. S. Dudgeon and Mr. W. Price were elected Trustees in place of Mrs. E. Mugford, whose term had expired and who declined to stand again, and Mr. E. Bush, who has left the district.

The estimates for the ensuing year provided for \$6,745, as against \$7,031 last year. There was some discussion as to the advisability of granting an increase in salary to one of the teachers. Mr. J. Reid expressed the opinion that the ratepayers were getting nothing that could not stand any more. The great surplus of qualified teachers was mentioned as a reason why nothing should be done.

The estimates were passed, however, with no amendment. Mrs. J. Sutherland complained that too much time was being devoted to Grades 2 and 3 to making wall pockets and other things instead of taking up more useful subjects. Mrs. Wallace backed up Mrs. Sutherland and suggested it was a matter which could be taken up at the next convention of School Trustees.

It was felt that the work complained of was more of a kindergarten nature and a resolution was passed that the incoming Trustees make a recommendation at the next School Trustees' convention that such subjects as making wall pockets and booklets and other kindergarten work be confined to the first grades and more time given to essential subjects in all higher grades.

The matter of keeping children in school longer than the time specified in the School Act was next discussed on a complaint of Mr. George White. Mr. J. Reid complained that some of the children were not getting a fair show, as they went to school early and arrived home late.

It was pointed out during the discussion that the cause of this was partly due to the increase in the school curriculum, which put more work on the teacher, who could not get the work done in the ordinary school hours.

Too much home work and taking up the additional subject of current events were also discussed, and eventually the following resolution was passed on the motion of Mr. Mills:

"That the new Board instruct the principal to see that the staff conform to the School Act as regards the hours the pupils are kept at school, and that teachers attend school the required time before school."

The hardly annual question as to the date of the annual meeting was again raised, this time by Mr. A. Gray.

The chairman replied that when the Minister of Education was at the school the Trustees took this matter up with him. The Minister had admitted the justice of their claim that there should be a change in the day of meeting and had agreed to give the matter consideration.

Votes of thanks to the Trustees for their services during the past year were passed, and the meeting adjourned at 9:45 p.m.

## GLENMORE

Mrs. Stocks, of Penicton, is visiting at the home of her daughter, Mrs. G. H. Mounbray.

Master Phil Mounbray left on Monday for a visit at the Coast.

Arthur Reed met with a very unfortunate accident on Tuesday. Falling from a wagon, boxes fell on him, resulting in a bad right arm fracture. He is resting as comfortably as can be expected at the Kelowna Hospital.

Two names were accidentally omitted from the list given in last week's issue of Glenmore Public School pupils who were successful in their examinations, these being Reba Hicks, who passed into Grade 8, and Vincent Griffin, into Grade 5.

**Glenmore Ratepayers' Meeting**  
Domestic water service for the south end of Glenmore was thoroughly discussed at a meeting of the ratepayers held on July 15th, in the School. A large number of ratepayers attended and showed a keen interest in the question.

Councillor S. Pearson took the chair in the absence of the Reeve, who was reported to be indisposed.

Clerk R. W. Corner was called upon to explain the proposals. He said that the City Solicitor had found that the residents from the City boundary past the Golf Links and around to Hartwick's desired the service and had taken steps to obtain it under the Local Improvement Act, by a petition to the Council, which step would obviate any appeal to the ratepayers at large. It was desired so to arrange the scheme that the water rates would pay all costs, both operating and capital charges. The Municipal Solicitor had found that the only way the revenue from the sale of water could be applied to paying the capital charges was for the improvement to be put in by the Municipality as a charge upon the whole district. It was thus necessary to abandon the Local Improvement procedure and it was now proposed to borrow the required amount of money on debentures the security for which would be the whole municipality. To meet legal requirements a mill rate for repayment of debentures would have to be struck, but since the water rates were to be fixed high enough to carry all charges there would be revenue from that source sufficient to take off the general tax rate the same amount as would be put on the repayment of debentures.

In this way ratepayers not using the water would not be paying any of the cost, but it was probable that at times a profit would be made on the service, which profit would go to the Municipality as a whole. In answer to a question as to what would happen if a number of prospective users did not take the water as expected, the speaker stated the Council had power to set the rate at whatever they liked and could see that it was high enough to cover the costs even if some did not take it. In any case, he stated, Councillor Ferguson had it figured out the rate to the users would be less than what Glenmore people were now paying to the City of Kelowna for domestic water.

Before preparing the By-Law to put before the ratepayers it was necessary to have the engineer take levels and prepare specifications, which would cost something to the ratepayers if the Municipality if the By-Law should not carry. On this account the Council desired to put the matter before the meeting so that some idea might be obtained as to whether or not the proposal meets with public favour and the By-Law likely to pass. If it passed, of course the engineering costs would be charged against the work.

Councillor Pearson gave his view that, so long as the north end of the Municipality could not get domestic water, he was in favour of the south end getting it if they were willing to pay for it.

Councillor Ferguson quoted City Engineer Blakeborough of Kelowna as stating the pressure available from the Kelowna system would take the water 60 feet higher than the highest point contemplated at the present time at the Golf Links.

Some discussion took place on the advisability of putting in a larger main pipe so as to serve a larger area later, and the possibility of obtaining cheap power from Shuswap or Kootenay and pumping domestic water for the whole Municipality was also talked of.

Mr. W. R. Trench moved that the Council prepare the By-Law after first consulting Mr. Blakeborough and anyone else they see fit as to a suitable size of pipe to permit of an extension of the system. This resolution was ultimately seconded by Mr. G. C. Hume and carried.

It was not apparent how far it might be desirable to extend, if at all. Some thought the whole district might get it and others thought only a slight extension feasible, taking in those who could be served by gravity without extra pumping.

Councillor Clarke thought the City mains from which the service would start were only 4 inch and that therefore no larger pipe in Glenmore would be of any use.

Mr. J. J. Staples asked if a larger pipe were used would the south end still be expected to pay the carrying charges until such time as the system were extended, to which Councillor Ferguson answered the Council would have to carry the extra cost.

Mr. C. E. Atkin moved that the Council should look into the cost of domestic water and pumping costs from the Kootenay Power Co. and the Shuswap Co. for the whole Municipality.

The Clerk was asked if, as assessor, he would raise the assessments on land and improvements because of the water service to which he replied that he would not increase any assessments until it was apparent that an actual increase in real value had taken place.

When the meeting adjourned at 10 p.m. the only resolution which had been passed was the one of Mr. Trench's to go ahead with the work as originally planned, namely a 4-inch main to serve the south end only.

It is about time for something worse to take the place of jazz.

Men's fancy sox in a big range of coloured stripes; 5 pair for 95c

## THE PRAIRIE FRUIT MARKET BULLETIN

(Continued from Page 6)

a lower figure. Black and red currants are also in at prices as quoted. The demand for currants is limited, but no doubt after the deal is still on the market. Apparently the public needs to be educated as to the time and duration of the season for this fruit.

Cherry prices are still lower this week. Bings and Lamberts from the Okanagan being 18c, and Royal Annes from the same source being 13c and 14c. The bulk of the deal is still on the upper country product, few locals being as yet offered.

St. John peaches from California are now in, sharing the market with Triumphs from the same source. Prices are somewhat lower than a week ago. Armstrong celery came in during the week. The quality is excellent, but the stalks are short. This product comes in a 40-lb. box, the number of stalks varying according to size. It would ap-

pear that some form of crate holding the celery heads up would be an improvement on this. Such a container is favoured by all the other shippers to this market and has proved to be very satisfactory.

The price on new potatoes remains unchanged, this being a controlled product and not so immediately affected by conditions of supply and demand. Hothouse tomato prices are much lower, the heavy production season now being on. The market on green vegetables of various kinds is now almost wholly supplied from local sources and imports have fallen off accordingly.

**Wholesale Produce**

### CRICKET

League Standing	P.	W.	L.	D.	Pts.
Occidentals	5	4	0	1	9
City	4	2	1	1	5
Woodsdale	4	1	3	0	2
Canadian Legion	5	1	4	0	2

### Coming Matches

City vs. Woodsdale at Kelowna, July 21; Woodsdale at Occidentals, July 28. A splendid innings by A. K. Loyd, Occidental captain, who ran up 54 not out, for the only score of any size, and the ability of the tail end and of the batting order to stay long enough to assist him, was all that saved the league leaders from their first defeat of the season at the hands of the Canadian Legion. The most exciting match in many weeks went to the Occidentals by the narrow margin of 8 runs, after the Veterans, who fielded their strongest team of the season, had progressed so far as to take no less than 7 Occidental wickets for 42 runs, after making 109 themselves.

As matters now stand, the Occidentals need a draw or a win in their final match against Woodsdale on July 28, as, should the City win against the Veterans and the Woodsdale eleven, and the packers lose to Woodsdale, a tie for league leadership would result. Had the champions lost this week to the Legion, the league race would have become extremely interesting.

The Veterans fielded a strong team, and batting first, ran up 109 before the side was out, the Occidentals lacking an effective bowler to assist Johnson, until Patterson went in towards the close and took four wickets in three overs for but 2 runs! A peculiar feature of the Legion innings was the fact that they ran up 104 for 4 wickets, mainly due to Wharton, 34, and Dunlop, 37, but after the fourth wicket had fallen the remaining 6 wickets fell for the paltry total of 5 runs, four batsmen being retired with "ducks."

The Occidentals, facing the bowling of Dunlop and Sutton, fared badly, and wickets fell quickly until Loyd came in with 2 wickets down for 20. Webb was dismissed when but 9 more runs had been put on, and Johnson was out 11.4. without a score. Patterson followed quickly for 2, and with 5 wickets down for 31, a collapse seemed apparent, as Coe and Lee went out, the Occidentals only having made 42 for 7 wickets. Cookson, Bourke, and Burnham stayed long enough, with Loyd, who had carried his bat, to give the packers sufficient runs to overtake the Veterans total, as bowlers were changed in an effort to retire the side before sufficient runs could be put on to win. No less than six Occidental batsmen fell victims to catches by the Legion fielders, while Patterson, for the Occidentals, was prominent with clean fielding. The league leaders felt the loss of Oliver, both on the bowling and at bat, but the Veterans were decidedly unlucky in not pulling out a win, after disposing of more than half of their opponents' wickets for less than 50.

### City Team For Woodsdale Fixture

The following is the City eleven for their match against Woodsdale on Sunday: Mangin, Blakeborough, Matthews, Crichton, Hayman, Hughes, Games, Kason, Dalton, Fleck, Norman and Keevil.

### Vancouver Eleven To Play Here July 26

Cricketers are reminded of the forthcoming visit of a Vancouver eleven to the Interior and of the dates of the matches with Kelowna and an all-star eleven at Vernon, on Friday, June 26. The visitors will play a local eleven, the personnel of which will be chosen by the executive at a meeting to be held on Friday night, July 19, and the following day after the Kelowna match. July 27, the Vancouver cricketers will meet a selected all-star eleven at Vernon.

W. B. Bredin is endeavouring to line up a team to visit Victoria during British Columbia cricket week during the latter part of August, and if a team is found possible, it will give the sport a considerable boost, as there are a large number of excellent cricketers between Kelowna and Salmon Arm, who would be worthy of places on a "rep" Interior eleven.

Anyway, we are glad to learn that the disagreeable taste of things we don't like is caused by essential vitamins.

## BASEBALL

### Kelowna "Rep" Team Loses to Summerland

Summerland, the only team to defeat Kelowna's "rep" nine this season will be here this afternoon (Thursday) in a game scheduled to commence at 5:30 on the Harvey Avenue grounds, and the close competition between Kelowna, Pentiction and Summerland this year would indicate very little to choose between the three teams.

Last week, the locals journeyed out of town twice, going to Summerland last Thursday, where they lost a 10-5 decision to the home nine. Hitting louten hard and often in the first inning, the Summerland boys ran in 9 runs before Dalton stepped into the pitcher's box and not only stopped the rally, but held the Summerlanders to a solitary run for the remainder of the game. Kelowna did manage to push over 5 runs, but it was not sufficient to make up for the avalanche of runs in the first innings.

A feature of the game was the poor umpiring reported by spectators as unimpressive, and the cross-attended, obsolete rules, such as cross-attending the first base line without touching either runner or base to retire the batter, being in force, while two balls were in play at the same time, without any penalty.

Over the week-end, Pentiction was visited, and the locals apparently were affected by the intense heat prevailing, as Lombot's support was very shaky, and Dalton again took over the role in the pitcher's box, and while 2 runs came in off Dalton, the locals managed to eke out a 10-9 win.

Kelowna has now won from Vernon twice, Pentiction twice, and lost once to Summerland, so that this afternoon's game should be an interesting one. With the excellent ball displayed in the final games of the District League series, there is no doubt that the locals are capable of displaying good baseball, and with support from the fans the old outstanding liability of last season's defeat should be wiped out entirely, and a fresh start made for another year.

### Score Figures In District League Playoffs

Some interesting figures have been given out by the scorer in the three final playoff games between the Ramblers and Hornets for the Central Okanagan league championship, and it is unfortunate that Harold Johnston, whose hitting was the feature of the first two games, was unable to participate in the final contest. The figures given out by the scorer covering the three games are as follows:

### BATTING AVERAGES

	G.	A.B.	R.	H.	P.C.	S.O.

### LARGEST GYPSUM PRODUCER

Nova Scotia is the largest producer of gypsum in Canada, followed by New Brunswick, Ontario, Manitoba, and British Columbia.

### Landscape Studies

"How was the scenery on your trip?" "Well, the toothpaste ads were rather better done than the tobacco, but there was more furniture than anything else." — Boston Transcript.

## GENERAL IMPROVEMENT IN ANGLING CONDITIONS

### Sportmen Obtain Good Baskets In Majority Of Localities Visited

Good fishing now abounds in all the summit lakes, if last week's results may be taken as a criterion. Practically all of the anglers who spent the week-end at the various lakes returned home with satisfactory baskets. The speckled beauties are hungry.

We are indebted to "Joe" Spurrier, who believes in "seeing B. C. first," for the following holiday suggestions for those who do not wish to go too far afield on an angling expedition. Within an 80-mile radius of Kelowna, good fishing and accommodation may be found at Mabel, Sugar, Shuswap and Chute Lakes, Adams River and Lake. Fish Lake at Grand Prairie and Lake at Falkland. If you're not successful at these bodies of water, blame "Joe."

Mr. T. A. Cumming, of Vancouver, surprised anglers at Woods Lake over the week-end when, using a large spinner, he captured a 5-pound trout, possibly the largest ever extracted from those waters. The big beauty put up a stiff battle before it was finally brought into the boat. Tackle and boats are available at Woods Lake.

Mr. Pat Runcie and party found the trout responsive at Adams River over the week-end, but they were unable to land the big fellows. "Better luck next time, Pat."

Messrs. Jack Gripman and Dan Hill and party found the fly fishing satisfactory at Sugar Lake over the week-end, and Dan Bonnell and party had little difficulty in bagging the limit at Brenda Falls. Incidentally, the road to Brenda is good all the way.

Mr. R. Haldane and party had good luck on the fly at Belgo Dam recently. They used the Jack Scott Special. Fishing at Chute Lake over the week-end, Mr. and Mrs. C. Rowcliffe caught their limit on the fly. Chute, it should be remembered, is purely a fly lake.

Miss Maureen Hamilton, fishing near Stirling's house on the Okanagan this week, caught three beauties. She used the Jack Lloyd spinner.

A party composed of the Cohen brothers, motion picture producers of Hollywood, California, and Mr. Jack Lloyd, of Bear Lake, California, professional guide, spent the week-end in this vicinity while on a fishing tour of the Pacific north-west. Fishing at Raymer's Bay on the Okanagan, they were exceptionally well pleased with the yield of the big lake at this point, the largest of their basket weighing eighteen pounds. They used copper line and the Jack Lloyd spinner. They thoroughly enjoyed their visit to the Kelowna district and intend to return again, but they felt the lack of cabin accommodation in the Tourist Camp.

Mr. F. Pridham and party left this week for Fish Lake, Kamloops, where they will spend the week-end.

The Rev. C. E. Davis and Mr. O. St. P. Aikens left this week for Penticton, where they will be the guests of Mr. Dole, the pineapple king. This lake is thirty miles in circumference and

## Blonde, brunette---or in between --- your TYPE determines the color of your Jantzen

Emphasize the beauty of your coloring when you don your swimming suit! Choose harmonious colors --- created by Jantzen --- dashing, youthful, flattering --- most becoming to your type --- blonde, brunette --- whatever yours may be.

Individuality! Not alone in color, but in style and perfect fit. And when you want to really swim, you're doubly glad your suit's a Jantzen. Flashing

through the water like a dolphin, or at play, you're limb and fancy free. Your Jantzen scarcely lets you know it's on you! Tightly knitted from long-fibred wool by the Jantzen-stitch process, a Jantzen fits you lightly, comfortably, smoothly --- without a wrinkle. Gives you that rare combination of smart appearance and freedom for active swimming. And being extremely elastic, a Jantzen retains its shape.

Color-fast; being literally dyed-in-the-wool. For a perfect fit, just state your weight in street clothes.

LADIES' JANTZEN, 34 to 44	\$5.75
LADIES' UNIVERSAL, 34 to 44; \$3.25 and	\$4.50
MISSIES' UNIVERSAL, 24 to 36	\$2.95
MEN'S JANTZEN, 34 to 46	\$5.75
YOUTHS' UNIVERSAL, 26 to 36; \$2.95 and	\$3.75
CHILDREN'S SUN-SUITS; \$1.50 and	\$1.95
BATHING CAPS, 20c to	75c

The 50c Diver is a winner.

## OUT IN THE SUN

IN A JANTZEN SUN-SUIT... YOUR CHILD BENEFITS BY THE VITALIZING RAYS

Science has found that the beneficial part of sunlight is that known as the "ultra-violet rays." Child specialists and other prominent physicians are recommending daily sun-baths as an important factor in child health.

Under the supervision of a noted child specialist, the Jantzen Sun-suit was designed. To give a maximum exposure of skin surface to the sun, the neck, arm-holes and legs of the suit have been cut away. Modest looking, though, it can be worn "anywhere under the sun!"

Basically a Jantzen swimming suit --- every inch a Jantzen. Of long-fibred wool, tightly knitted by a process called Jantzen-stitch. Its extreme elasticity provides for the growth of your child. Being of wool, it absorbs normal perspiration; guards your child against changing temperatures.
